### Farm Building Exemption Statement

\_\_\_\_\_  
(Name)

\_\_\_\_\_  
(911 Address) (Tax map no.)

I have a plan \_\_\_\_\_ build a structure for \_\_\_\_\_  
Establish Electrical Service for \_\_\_\_\_ that will be used

for farm purposes. The farm purposes for which the building will be used are:  
*(you may use more than one)*

**A FARM BUILDING OR STRUCTURES is a building or structure not used for residential purposes, located on the property where farming operations take place, and used primarily for any of the following uses or combination thereof:**

- Storage, handling, production, display, sampling or sale of agricultural, horticultural, Floricultural or silvicultural produced on a farm.
- Sheltering, raising, handling, processing or sales of agricultural animals or agricultural animal products.
- Business or office uses relating to the farm operations.
- Use, maintenance or storage of farm related vehicles, equipment, or machinery.
- Storage or use of supplies and materials used on the farm.
- Implementation of best management practices associated with farm operations.
- **AGRICULTURAL BUILDING** is designed to house farm implements, hay, grain, poultry, livestock or other horticultural products. This structure shall not be a place of human habitation or a place of employment where agricultural products are processed, treated or packaged, nor shall it be by the public.

Because the structure is used for farm purposes only, I understand that the project is exempt from Virginia Uniform Statewide Building Code. However I understand that if this building ever has a change of use, then at that point the building must comply with the current Virginia Statewide Uniform Building Code. (VUSBC, Section 102.3, NO.6)
