

DID YOU KNOW . . . **Unlicensed Contracting** **Is Illegal**

You may be in violation of state law prohibiting illegal contracting – which includes painting, home improvement, roofing, etc. without a state license.

Even if you possess a local business license, in most cases you are also required to hold a state license from the Virginia Board for Contractors.

DON'T RISK IT! Contact the Department of Professional and Occupational Regulation (DPOR) to find out how to comply with the law.
