Independent Auditors' Report

To the Board of Supervisors County of Tazewell, Virginia Tazewell, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Tazewell, Virginia, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise County of Tazewell, Virginia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Tazewell County, Virginia School Activity Funds, which represent 0.64 percent, 2.53 percent, and 1.22 percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Tazewell County, Virginia School Activity Funds, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Tazewell, Virginia, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 21 to the financial statements, in 2021, the County adopted new accounting guidance, GASB Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Restatement of Beginning Balances

As described in Note 21 to the financial statements, in 2021, the County restated beginning balances to reflect the requirements of GASB Statement No. 84. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules related to pension and OPEB funding on pages 5-11, 98, and 99-117, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise County of Tazewell, Virginia's basic financial statements. The introductory section, other supplementary information, and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

Supplementary and Other Information (continued)

The other supplementary information and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of other auditors, the other supplementary information and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2021 on our consideration of County of Tazewell, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of County of Tazewell, Virginia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Tazewell, Virginia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

To the Honorable Members of the Board of Supervisors To the Citizens of Tazewell County County of Tazewell, Virginia

As management of the County of Tazewell, Virginia ("the County") we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with the audited basic financial statements.

Financial Highlights:

- The assets and deferred outflows of resources of the County's governmental activities exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$10,816,566 (net position). Of this amount, \$2,570,366 was considered unrestricted.
- The liabilities and deferred inflows of resources of the County's business-type activities exceeded its assets and deferred outflows of resources at the close of the fiscal year by \$2,624,685 (net position).
- The liabilities and deferred inflows of resources of the School Board component unit exceeded its assets and deferred outflows of resources at the close of the fiscal year by \$31,379,316 (net position).
- As of the close of the current fiscal year, the County's funds reported combined ending fund balances of \$15,666,962. Of this amount \$12,859,686 was considered unassigned, \$1,947,232 was considered committed, \$713,050 was considered restricted, and \$146,994 was considered nonspendable.
- During the year, the County had governmental revenues that were \$1,041,693 more than expenditures.

Overview of the Financial Statements:

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- Government-Wide Financial Statements,
- Fund Financial Statements, and
- Notes to Financial Statements.

This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

<u>Government-Wide Financial Statements</u> – The Government-Wide Financial Statements are designed to provide the readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets and deferred outflows of resources and liabilities and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The Statement of Activities distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). Our governmental activities include general government, courts, public safety, sanitation, social services, education, cultural events, and recreation. Our business-type activities are for waste collection.

The Government-wide Financial Statements include not only the County itself (known as the primary government), but also a Landfill Fund (known as business-type activities) and a legally separate School Board for which the County is financially accountable. The financial statements also include three discretely presented component units that we do not control but do exercise a significant financial relationship with. These include the Public Service Authority, the Industrial Development Authority, and the Airport Authority.

<u>Fund financial statements</u> – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

<u>Governmental funds</u> – Governmental funds are used to account for essentially the same functions reported as governmental activities in the Government-Wide Financial Statements. However, unlike the Government-Wide Financial Statements, governmental fund financial statement focus on near-term inflows and outflows of spendable resources, as well as on the balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the Government-Wide Financial Statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the Government-Wide Financial Statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains six individual governmental funds. Information is presented in the governmental funds Balance Sheet and in the Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, County CIP Fund, Coal Road Improvement Fund, Coal Road Economic Development Fund, Damage Stamp Fund and Law Library Fund, of which the General and County CIP Funds are considered to be major funds. Data from the four other nonmajor governmental funds are combined into a single presentation. Individual fund data for each of these funds are shown elsewhere in this report.

The County adopts an annual appropriated budget for its Governmental funds. A budgetary comparison statement has been provided to demonstrate compliance with this budget.

<u>Proprietary Funds</u> – The County maintains one proprietary fund: Landfill Fund. This fund accounts for activities similar to those found in the private sector.

<u>Agency funds</u> – The County is the trustee, or fiduciary, for the County's agency funds and expendable trust funds. We are responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate Statement of Fiduciary Net Position. The County excludes these activities from the County's Government-Wide Financial Statements because the County cannot use these assets to finance its operations.

<u>Notes to Financial Statements</u> – The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and Fund Financial Statements.

Other information – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information for budgetary comparison and presentation of combining financial statements for the discretely presented component units and the non-major funds.

Government-Wide Financial Analysis

As noted earlier, net position may serve as a useful indicator of a County's financial position. In the case of the of the County's Primary Government, assets and deferred outflows of resources exceed liabilities and deferred inflows of resources by \$8,191,881 at the close of the most recent fiscal year.

The largest portion of the County's net position \$13,942,207 reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens. Consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The remaining balance of net position (\$5,750,326) may be used to meet the County's ongoing obligations.

The following table summarizes the County's Statement of Net Position and Statement of Activities for 2021 and 2020.

Statement of Net Position

| | Governmental and Business-type Activities | | Business-type | | rernmental and usiness-type Activities 2020 |

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$15,666,962. Approximately 1% or \$146,994 is considered nonspendable, as it is for prepaid expenses; approximately 5% or \$713,050 is restricted as to use; approximately 12% or \$1,947,232 has been committed by action of the Board of Supervisors. The remaining balance, \$12,859,686 or 82% is unassigned, meaning there are no restrictions placed on the funds.

The general fund is the operating fund of the County. At the end of the current fiscal year, total fund balance of the general fund was \$14,115,672. Of this amount \$12,859,686 was considered unassigned, \$395,942 was considered committed, \$713,050 was considered restricted and \$146,994 was considered nonspendable. The special revenue funds, at the end of the fiscal year, had a fund balance of \$1,225,743 and was considered committed. The County CIP Fund had a fund balance of \$325,547 of which all was considered committed.

Total governmental fund revenues increased \$9,094,305 and expenditures increased \$9,073,751 over prior year amounts. These increases are the result of CARES related grants. For fiscal year ended June 30, 2021, revenues exceeded expenditures by \$1,041,693, as compared to the fiscal year ended June 30, 2020, revenues exceeded expenditures by \$1,021,139.

General Fund Budgetary Highlights

There were differences between the original budget and the final amended budget for the current year.

Capital Assets and Debt Administration

<u>Capital assets</u> – The County's investment in capital assets for its governmental activities and business-type activities as of June 30, 2021, amounts to \$29,833,112 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, tenancy in common, improvements other than buildings, and construction in progress.

Additional information on the County's capital assets can be found in Note 5 of this report.

<u>Long-term obligations</u> – At the end of the current fiscal year, the County had total long-term obligations outstanding as follows:

| Governmental Activities | |
|---------------------------------|------------------|
| Accrued leave | \$ 711,299 |
| Net OPEB liabilities | 7,362,436 |
| Net pension liability | 10,200,181 |
| General obligation bond | 3,886,057 |
| Revenue bonds | 12,049,476 |
| | |
| Total | \$ 34,209,449 |
| Total | \$ 34,209,449 |
| Total Business-type Activities | \$ 34,209,449 |
| | \$ 34,209,449 |
| Business-type Activities | |

Additional information on the County's long-term obligations can be found in Note 6 of this report.

Economic Factors

The June 2021 unemployment rate for the County was 5.8%, which is decrease from a rate of 9.8% in June 2020. This is above the state's average unemployment rate of 4.5% but below the national average rate of 6.1%.

Request for Information

This financial report is designed to provide a general overview of the County's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, 197 Main Street, Tazewell, Virginia 24651.

COUNTY OF TAZEWELL, VIRGINIA NOTES TO FINANCIAL STATEMENTS June 30, 2021

Note 1 - Summary of Significant Accounting Policies:

County of Tazewell, Virginia is governed by an elected five member Board of Supervisors. The Board of Supervisors is responsible for appointing the County Administrator. The County provides a full range of services for its citizens. These services include police and volunteer fire protection, sanitation services, recreational activities, cultural events, education and social services.

The financial statements of County of Tazewell, Virginia conform to generally accepted accounting principles (GAAP) applicable to governmental unties promulgated by the Governmental Accounting Standards Board (GASB) and have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia. The significant accounting policies are described below.

Financial Statement Presentation

<u>Management's Discussion and Analysis</u> - The financial statements are accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

Government-wide and Fund Financial Statements

<u>Government-wide Financial Statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

<u>Statement of Net Position</u> - The Statement of Net position is designed to display financial position of the primary government (governmental and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide Statement of Net position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories: 1) net investment in capital assets 2) restricted; and 3) unrestricted.

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Note 1 - Summary of Significant Accounting Policies: (Continued)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the governmental-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary comparison schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate, in one way or another, in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their government over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. The budgetary comparison schedule presents the original budget, the final budget, and the actual activity of the major governmental funds.

A. <u>Financial Reporting Entity</u>

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization, or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Tazewell, Virginia (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Therefore data from these units is combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize that it is legally separate from the government.

B. Individual Component Unit Disclosures

Blended Component Units: None

Discretely Presented Component Units:

<u>Tazewell County School Board</u> members are elected by the voters and are responsible for the operations of the County's School System. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Board does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation in the County financial statements for the fiscal year ended June 30, 2021.

Note 1 - Summary of Significant Accounting Policies: (Continued)

B. Individual Component Unit Disclosures (Continued)

<u>Tazewell County Industrial Development Authority</u> is authorized to acquire, own, lease and dispose of properties to the end that such activities may promote industry and develop trade by inducing enterprises to locate and remain in Tazewell County. Tazewell County Board of Supervisors appoints all Board members of the Authority. There exists a financial benefit/burden relationship between the Industrial Development Authority and the County.

<u>Tazewell County Airport Authority</u> was created by County of Tazewell and Towns of Bluefield, Cedar Bluff, Pocahontas, Richlands and Tazewell to operate a regional airport. Tazewell County Board of Supervisors appoints a voting majority of the Airport Authority's Board of Directors. The County contributes a significant amount to the Authority's operation and there exists a financial benefit/burden relationship.

<u>Tazewell County Public Service Authority</u> was created by the Board of Supervisors of Tazewell County to acquire, finance, construct and operate water and sewer systems throughout the County. The Board of Directors of the Public Service Authority are appointed by the Tazewell County Board of Supervisors and there exists a financial benefit/burden relationship between the Public Service Authority and the County. In addition, a majority of the Directors of the Authority are also on the Board of Supervisors.

Complete financial statements of the Tazewell County Public Service Authority, Tazewell County Industrial Development Authority and the Tazewell County Airport Authority can be obtained from the business office of each component unit.

Other Related Organizations Included in the County's Annual Financial Report

None

Jointly Governed Organizations

County of Tazewell and Counties of Buchanan and Russell participate in supporting the Cumberland Mountain Community Services Board. For the year ended June 30, 2021, the County contributed \$70,000.

County of Tazewell and Counties of Russell, Buchanan, Wise, Scott, Lee, Washington, Smyth and Dickenson and the Cities of Norton and Bristol participate in supporting the Appalachian Juvenile Commission. For the year ended June 30, 2021, the County contributed \$197,212.

County of Tazewell and Counties of Lee, Wise, Washington, Russell, Smyth, Buchanan and Dickenson along with the City of Norton participate in supporting the Southwest Virginia Regional Jail Authority. For the year ended June 30, 2021, the County contributed \$3,953,985.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

Note 1 - Summary of Significant Accounting Policies: (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statement of activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditures on general long-term debt as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's proprietary funds utilize an economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position and cash flows. All assets and liabilities, whether current or noncurrent, associated with their activities are reported. Proprietary fund equity is classified as net position. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Note 1 - Summary of Significant Accounting Policies: (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The government reports the following major governmental funds:

General Fund:

The General Fund is the primary operating fund of the County. This fund is used to account for and report all financial transactions and resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income.

Capital Projects Fund:

The County CIP Fund accounts for and reports all financial resources used for the acquisition or construction of major capital facilities and is reported as a major fund.

The School Board reports the following major fund types:

The School Operating Fund is the primary operating fund of the School Board and accounts for and reports all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from appropriations from the County and state and federal grants.

The School Activity Fund is a special revenue fund that accounts for and reports all funds received from extracurricular school activities, such as entertainment, athletic contests, club dues, fundraisers, etc., and from any and all activities of the individual schools.

The government reports the following nonmajor governmental funds:

Special Revenue Funds:

Special Revenue Funds account for and report the proceeds of specific revenue sources (other than those dedicated for major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. The Coal Road Improvement Fund, Coal Road Economic Development Fund, Damage Stamp Fund, and Law Library Fund are reported as nonmajor special revenue funds.

Note 1 - Summary of Significant Accounting Policies: (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Additionally, Tazewell County reports the following fund types:

Proprietary Funds:

The Proprietary Funds are accounted and financed in a manner similar to private business. The funds utilize accrual basis of accounting, in which revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. The Landfill Fund is reported as a major proprietary fund.

Fiduciary Funds (Trust and Custodial Funds):

Fiduciary, Trust and Custodial funds account for assets held by the County unit in a trustee capacity or as custodian for individuals, private organizations, other governmental units, or other funds. These funds include Custodial Funds and they utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements. The Special Welfare and Local Sales Tax Funds are reported as Custodial Funds.

D. <u>Budget and Budgetary Accounting</u>

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the departmental level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments. However, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, School Operating Fund, and the Capital Projects Fund.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. Several supplemental appropriations were necessary during the year and at year-end.
- 8. All budgetary data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.
- 9. Expenditures did not exceed appropriations during the year.
- 10. At June 30, 2021, the Landfill Fund had a deficit net position balance.

Note 1 - Summary of Significant Accounting Policies: (Continued)

E. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government. For purposes of the statement of cash flows, the government's proprietary funds consider their demand deposits and all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

F. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit, other nonparticipating investments and external investment pools are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction at year end.

G. Receivable and payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds." All other outstanding balances between funds are reported as "advances to/from other funds" (i.e. the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown net of an allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$411,565 and \$10,482 at June 30, 2021 and is comprised of property taxes and unpaid landfill bills, respectively.

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable December 5th. The County bills and collects its own property taxes.

Note 1 - Summary of Significant Accounting Policies: (Continued)

H. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, road registered vehicles, and equipment with an estimated useful life in excess of one year and a cost of over \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized for the fiscal year ending June 30, 2021.

Property, plant, equipment, and infrastructure of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

| Assets | Years |
|--|-------|
| Buildings | 40-60 |
| Building, land, and other improvements | 40-60 |
| Vehicles | 5 |
| Office and computer equipment | 7 |
| Machinery and other equipment | 7 |

Note 1 - Summary of Significant Accounting Policies: (Continued)

I. <u>Deferred Outflows/Inflows of Resources</u>

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure/expense) until then. The County has two items that qualify for reporting in this category. One item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item is comprised of certain items related to the measurement of the net pension liability and net OPEB liabilities and contributions to the pension and OPEB plans made during the current year and subsequent to the net pension liability and net OPEB liabilities measurement date. For more detailed information on these items, reference the related notes.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has multiple items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2nd half installments levied during the fiscal year but due after June 30th, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability and net OPEB liabilities are reported as deferred inflows of resources. For more detailed information on these items, reference the related notes.

J. Compensated Absences

Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. No liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

Note 1 - Summary of Significant Accounting Policies: (Continued)

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's and School Board's Retirement Plans and the additions to/deductions from the County's and School Board's Retirement Plans' fiduciary net position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Other Postemployment Benefits (OPEB)

For purposes of measuring the net VRS related OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI, HIC, and Teacher HIC OPEB Plans and the additions to/deductions from the VRS OPEB Plans' fiduciary net position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

M. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Note 1 - Summary of Significant Accounting Policies: (Continued)

N. Fund Balance

The following classifications of fund balance describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or lifted only with the consent of the resource providers;
- Committed fund balance amounts that can be used only for the specific purposes determined by the adoption of an ordinance committing fund balance for a specified purpose by the Board of Supervisors prior to the end of the fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until the resources have been spent for the specified purpose or the Board adopts another ordinance to remove or revise the limitation;
- Assigned fund balance amounts a government intends to use for a specific purpose but do not meet the criteria to be classified as committed; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. Unlike commitments, assignments general only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

The County's highest decision-making level is the Board of Supervisors. Action from the Board of Supervisors is required to commit or release funds from commitment.

The County's Board of Supervisors has authorized the County Administrator to assign fund balance to a specific purpose as approved within the County fund balance policy.

The County considers restricted fund balance to be spent when an expenditure is incurred for purposes for which restricted and unassigned, assigned, or committed fund balances are available, unless prohibited by legal documents or contracts. When an expenditure is incurred for purposes for which committed, assigned or unassigned amounts are available, the County considers committed fund balance to be spent first, then assigned fund balance, and lastly unassigned fund balance.

O. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 1 - Summary of Significant Accounting Policies: (Continued)

P. Net Position

For government-wide reporting as well as in proprietary funds, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either by external parties or by law through constitutional provision or enabling legislation.
- Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Note 2 - Deposits and Investments:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board.

Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper that has received at least two of the following ratings: P-1 by Moody's Investors Service, Inc.; A-1 by Standard and Poor's; or F1 by Fitch Ratings, Inc. (Section 2.2-4502), banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

Note 2 - Deposits and Investments: (Continued)

Custodial Credit Risk (Investments)

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Neither the County nor its discretely presented component units have an investment policy for custodial credit risk.

The County's rated debt investments as of June 30, 2021 were rated by Standard and Poor's and/or an equivalent national rating organization and the rating are presented below using the Standard and Poor's rating scale.

| Rated Debt Investments | Fair | Fair Quality Ratings | | | | | | |
|-------------------------------|------|----------------------|--|--|--|--|--|--|
| | AAAm | | | | | | | |
| VIP Stable NAV Liquidity Pool | \$ | 2,594,178 | | | | | | |

Interest Rate Risk

Investment Maturities (in years)

| Investment Type | Fair Value | Less than 1 Year | | | | |
|-------------------------------|-------------|------------------|-----------|--|--|--|
| VIP Stable NAV Liquidity Pool | \$2,594,178 | \$ | 2,594,178 | | | |

Redemption Restrictions

The County has the option to have access to withdraw funds from VACO/VML Investment Pool twice a month, with a five-day period notice. Additionally, funds are available to meet unexpected needs such as fluctuations in revenue sources, one-time outlays (disasters, immediate capital needs, state budget cuts, and etc.).

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The County has measured fair value of the above VML/VACO Investment Pool investment at the net asset value (NAV).

Note 3 - Internal Balances and Transfers:

Internal balances consisted of the following as of June 30, 2021:

| Fund/Component Unit | Due From | | | Due To |
|----------------------------------|----------|-----------|----|-----------|
| Primary Government: | | | | |
| General | \$ | 3,857,841 | \$ | 159,828 |
| County CIP Fund | | 238,453 | | - |
| Landfill | | 34,828 | | - |
| Component Units: | | | | |
| School Board | | - | | 3,684,385 |
| Industrial Development Authority | | - | | 173,456 |
| Public Service Authority | | - | | 113,453 |
| Totals | \$ | 4,131,122 | \$ | 4,131,122 |
| | | | | |

Note: On the government-wide statement of net position, the amount due to the Primary Government from the Component Unit PSA is included in "Due from Component Units" for the Primary Government and "Due Within One Year" for the Component Unit PSA.

Interfund transfers for the year ended June 30, 2021, consisted of the following:

| Fund | T | ransfers In | Tr | ansfers Out |
|-----------------------|----|-------------|----|-------------|
| General | \$ | 5,000 | \$ | 1,842,468 |
| County CIP | | 1,109,004 | | - |
| Law Library | | - | | 5,000 |
| Coal Road Improvement | | - | | 280,000 |
| Landfill | | 1,013,464 | | - |
| Totals | \$ | 2,127,468 | \$ | 2,127,468 |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

Note 4 - Due From Other Governmental Units:

At June 30, 2021, the County and School Board had receivables from other governments as follows:

| | Primary Government | Discretely Presented Component Unit School Board |
|----------------------------------|-----------------------|--|
| Local Government: | | |
| Southwest Virginia Regional Jail | \$ 723,110 | \$ - |
| Russell County | - | 87,986 |
| Commonwealth of Virginia: | | |
| State sales taxes | 946,147 | - |
| Local sales taxes | - | 933,996 |
| VPA | 243,937 | - |
| CSA | 413,420 | - |
| Shared expenses | 332,406 | - |
| Categorical aid | 46,503 | - |
| Noncategorical aid | 70,968 | - |
| Federal Government: | | |
| VPA | 325,540 | - |
| Categorical aid | - | 1,411,593 |
| Total | \$ 3,102,031 | \$ 2,433,575 |

Note 5 - Capital Assets:

The following is a summary of changes in capital assets for the fiscal year ended June 30, 2021:

Primary Government:

| | | Beginning | | | | | | Ending |
|--|----|--------------|----|-------------|----|-------------|----|--------------|
| | | Balance | | Increases | | Decreases | | Balance |
| Governmental Activities: | - | | | | - | | - | |

⁽¹⁾ Legislation enacted during the year ended June 30, 2003, Section 15.2-1800.1 of the <u>Code of Virginia</u>, (1950), as amended, has changed the reporting of local school capital assets and related debt for financial statement purposes. Historically, debt incurred by local governments "on behalf" of school boards was reported in the school board's discrete column along with the related capital assets. Under the new law, local governments have a "tenancy in common" with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one fiscal year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the County of Tazewell, Virginia for the year ended June 30, 2021, is that assets and debt in the amount of \$2,073,337 have been transferred to the Primary Government from the Component Unit School Board for financial reporting purposes.

Note 6 - Long-term Obligations:

Primary Government:

The following is a summary of long-term obligations of the County for the year ended June 30, 2021:

Governmental Activities:

| | | Beginning | Increases/ | Decreases/ | Ending |
|-----------------------------------|-----|---------------|---------------|---------------|------------|
| | | Balance | Issuances | Retirements | Balance |
| Direct Borrowings and Placements: | _ | | | | |

⁽¹⁾ In the event of default, the lender of the related bonds may declare the entire unpaid principal and interest on the issuance as due and payable.

The 2014C lease revenue bond was issued by the Tazewell County IDA for renovations to the Courthouse building which is utilized by the County. Payments on the debt issuance are made by the County directly to the issuer. As a result, the debt and the asset are shown in the County's financial statements.

⁽²⁾ Debt is collateralized by the underlying property.

The School Board has entered into capital leases for energy renovations on the elementary schools. These lease agreements qualify as capital leases for accounting purposes and therefore have been recorded at the present value of their future minimum lease payments as of the inception date. They have also entered into a capital lease for energy improvements which will not be capitalized and depreciated.

Note 6 - Long-term Obligations: (Continued)

| Present value of future | | | | |
| minimum lease payments | \$1,351,423 | | | |

Note 7 - Compensated Absences:

Compensated Absences:

The County has accrued liabilities arising from outstanding compensated absences. Each county employee earns annual leave at various rates. Vested or accumulated leave is reported as an expenditure and a liability of the fund that will pay it. The County has outstanding accrued vacation and sick pay totaling \$711,299 in the general fund.

The School Board has accrued liabilities arising from outstanding compensated absences. Vacation and sick leave are accrued at various rates and paid out at \$50 per day upon retirement. The School Board has outstanding accrued vacation and sick pay totaling \$609,959.

Note 8 - Pension Plans:

Plan Description

All full-time, salaried permanent employees of the County, Tazewell County PSA and Tazewell County Airport Authority ("Component Units"), and (nonprofessional) employees of public school divisions are automatically covered by VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the <u>Code of Virginia</u>, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

Benefit Structures

The System administers three different benefit structures for covered employees - Plan 1, Plan 2 and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

- a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit. Hazardous duty employees (law enforcement officers, firefighters, and sheriffs) are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age plus service credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

Note 8 - Pension Plans: (Continued)

Average Final Compensation and Service Retirement Multiplier

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia, as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

Employees Covered by Benefit Terms

As of the June 30, 2019 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

| | Primary | |
|---|-----------------|-----------------|
| | Government | Component Unit |
| | and Other | School Board |
| | Component Units | Nonprofessional |
| Inactive members or their beneficiaries currently | | |
| receiving benefits | 267 | 238 |
| | | |
| Inactive members: | | |
| Vested inactive members | 46 | 15 |
| Non-vested inactive members | 68 | 73 |
| lan ativa an amb and a ativa alamah and in MDC | 427 | 25 |
| Inactive members active elsewhere in VRS | 126 | 25 |
| Total inactive members | 240 | 113 |
| Active members | 298 | 175 |
| Active members | | |
| Total covered employees | 805 | 526 |
| | | |

Note 8 - Pension Plans: (Continued)

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The County's and Component Units contractually required employer contribution rate for the year ended June 30, 2021 was 12.16% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$1,216,175 and \$1,086,636 for the years ended June 30, 2021 and June 30, 2020, respectively. Contributions to the pension plan from the Component Units were \$191,688 and \$178,343 for the years ended June 30, 2021 and June 30, 2020, respectively.

The Component Unit School Board's contractually required contribution rate for nonprofessional employees for the year ended June 30, 2021 was 15.28% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit School Board's nonprofessional employees were \$503,719 and \$446,160 for the years ended June 30, 2021 and June 30, 2020, respectively.

Net Pension Liability

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net pension. The County's and Component Unit School Board's (nonprofessional) net pension liabilities were measured as of June 30, 2020. The total pension liabilities used to calculate the net pension liabilities were determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020.

Note 8 - Pension Plans: (Continued)

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the County's and Component Unit School Board's (nonprofessional) Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation 2.50%

Salary increases, including inflation 3.50% - 5.35%

Investment rate of return 6.75%, net of pension plan investment

expenses, including inflation*

Mortality rates:

All Others (Non-10 Largest) - Non-Hazardous Duty: 15% of deaths are assumed to be service related Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

^{*} Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Note 8 - Pension Plans: (Continued)

Actuarial Assumptions - General Employees (Continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) - Non-Hazardous Duty:

| Mortality Rates (pre-retirement, post- | Updated to a more current mortality table - RP-2014 |
|--|--|
| retirement healthy, and disabled) | projected to 2020 |
| Retirement Rates | Lowered rates at older ages and changed final |
| | retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year |
| | age and service through 9 years of service |
| Disability Rates | Lowered rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Actuarial Assumptions - Public Safety Employees with Hazardous Duty Benefits

The total pension liability for Public Safety employees with Hazardous Duty Benefits in the County's Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation 2.50%

Salary increases, including inflation 3.50% - 5.35%

Investment rate of return 6.75%, net of pension plan investment

expenses, including inflation*

^{*} Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Note 8 - Pension Plans: (Continued)

Actuarial Assumptions - Public Safety Employees with Hazardous Duty Benefits (Continued)

Mortality rates:

All Others (Non-10 Largest) - Hazardous Duty: 45% of deaths are assumed to be service related Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020; males 90% of rates; females set forward 1 year.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 1 year, 1.0% increase compounded from ages 70 to 90; females set forward 3 years.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years; unisex using 100% male.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) - Hazardous Duty:

| Mortality Rates (pre-retirement, post- | Updated to a more current mortality table - RP-2014 |
|--|--|
| retirement healthy, and disabled) | projected to 2020 |
| | Increased age 50 rates, and lowered rates at older |
| Retirement Rates | ages |
| | Adjusted rates to better fit experience at each year |
| Withdrawal Rates | age and service through 9 years of service |
| Disability Rates | Adjusted rates to better fit experience |
| Salary Scale | No change |
| Line of Duty Disability | Decreased rate from 60.00% to 45.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Note 8 - Pension Plans: (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Acces (Share (Shares are) | Long-Term Target Asset | Arithmetic Long-term Expected | Weighted Average Long-term Expected |
|--------------------------------------|------------------------------|-------------------------------|-------------------------------------|
| Asset Class (Strategy) | Allocation | Rate of Return | Rate of Return* |
| Public Equity | 34.00% | 4.65% | 1.58% |
| Fixed Income | 15.00% | 0.46% | 0.07% |
| Credit Strategies | 14.00% | 5.38% | 0.75% |
| Real Assets | 14.00% | 5.01% | 0.70% |
| Private Equity | 14.00% | 8.34% | 1.17% |
| MAPS - Mulit-Asset Public Strategies | 6.00% | 3.04% | 0.18% |
| PIP - Private Investment Partnership | 3.00% | 6.49% | 0.19% |
| Total | 100.00% | | 4.64% |
| | | Inflation | 2.50% |
| *E | Expected arithme | etic nominal return | 7.14% |

^{*}The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

Note 8 - Pension Plans: (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; the County and Component Unit School Board (nonprofessional) was also provided with an opportunity to use an alternative employer contribution rate. For the year ended June 30, 2020, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017 actuarial valuations, whichever was greater. Through the fiscal year ended June 30, 2020, the rate contributed by the school division for the VRS Teacher Retirement Plan was subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, participating employers and school divisions are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Note 8 - Pension Plans: (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

\$1,216,175, \$191,688, and \$503,719 reported as deferred outflows of resources related to pensions resulting from the County's, Other Component Units', and Component Unit School Board's (nonprofessional) contributions, respectively, subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

| | | | Component Unit |
|------------|---------------|---------------------|-----------------------|
| Year Ended | Primary | Other | School Board |
| June 30 | Government | Component Units | (Nonprofessional) |
| | | | |
| 2022 | \$ 513,253 | \$ 103,913 | \$ (23,751) |
| 2023 | 426,246 | 84,523 | 167,629 |
| 2024 | 449,527 | 75,781 | 214,597 |
| 2025 | 425,085 | 69,765 | 199,665 |

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2020-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Component Unit School Board (professional)

Plan Description

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the system). Additional information related to the plan description is included in the first section of this note.

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each School Division's contractually required employer contribution rate for the year ended June 30, 2021 was 16.62% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the school division were \$4,067,701 and \$3,860,904 for the years ended June 30, 2021 and June 30, 2020, respectively.

Note 8 - Pension Plans: (Continued)

Component Unit School Board (professional) (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the school division reported a liability of \$42,287,021 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2020 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the school division's proportion was 0.29060% as compared to 0.29862% at June 30, 2019.

For the year ended June 30, 2021, the school division recognized pension expense of \$3,101,895. Since there was a change in proportionate share between the measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2021, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | _ | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|-----|--------------------------------|-------------------------------------|
| Differences between expected and actual experience | \$ | - \$ | 2,478,670 |
| Net difference between projected and actual earnings on pension plan investments | | 3,216,396 | - |
| Change in assumptions | | 2,886,619 | - |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | | - | 4,117,812 |
| Employer contributions subsequent to the measurement date | _ | 4,067,701 | |
| Total | \$_ | 10,170,716 \$ | 6,596,482 |

Note 8 - Pension Plans: (Continued)

<u>Component Unit School Board (professional) (Continued)</u>

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

\$4,067,701 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

| Year Ended June 30 | _ | |
|--------------------|----|-------------|
| 2022 | \$ | (1,429,231) |
| 2023 | | (139,922) |
| 2024 | | 496,736 |
| 2025 | | 672,563 |
| 2026 | | (93,613) |

Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

| Inflation | 2.50% |
|--------------------------------------|--|
| Salary increase, including inflation | 3.50% - 5.95% |
| Investment rate of return | 6.75%, net of pension plan investment expenses, including inflation* |

^{*} Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Note 8 - Pension Plans: (Continued)

Component Unit School Board (professional) (Continued)

Actuarial Assumptions (Continued)

Mortality rates:

Pre-Retirement:

RP-2014 White Collar Employee Rates to age 80, White Collar Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020.

Post-Retirement:

RP-2014 White Collar Employee Rates to age 49, White Collar Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males 1% increase compounded from ages 70 to 90; females set back 3 years with 1.5% increase compounded from ages 65 to 75 and 2.0% increase compounded from ages 75 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with Scale BB to 2020; 115% of rates for males and females.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post- | Updated to a more current mortality table - RP-2014 |
|--|--|
| retirement healthy, and disabled) | projected to 2020 |
| Retirement Rates | Lowered rates at older ages and changed final |
| | retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year |
| | age and service through 9 years of service |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Note 8 - Pension Plans: (Continued)

<u>Component Unit School Board (professional)</u> (Continued)

Net Pension Liability

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB Statement No. 67, less that system's fiduciary net position. As of June 30, 2020, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

| | | Teacher Employee Retirement Plan |
|---|-----|-------------------------------------|
| Total Pension Liability | \$ | 51,001,855 |
| Plan Fiduciary Net Position | | 36,449,229 |
| Employers' Net Pension Liability (Asset) | \$ | 14,552,626 |
| Plan Fiduciary Net Position as a Percenta | age | |
| of the Total Pension Liability | | 71.47% |

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

The long term expected rate of return and discount rate information previously described also apply to this plan.

Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the net pension liability using the discount rate of 6.75%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

| | | | | Rate | | |
|---------------------------------|----|------------|----|----------------|----|-------------|
| | 1 | % Decrease | Cu | rrent Discount | | 1% Increase |
| | | (5.75%) | | (6.75%) | - | (7.75%) |
| School division's proportionate | | | | | - | |
| share of the VRS Teacher | | | | | | |
| Employee Retirement Plan | | | | | | |
| Net Pension Liability | \$ | 62,044,557 | \$ | 42,287,021 | \$ | 25,945,041 |

Note 9 - Other Postemployment Benefits (OPEB) - Health Insurance:

Plan Description

In addition to the pension benefits described in Note 8, the County administers an agent multiple employer healthcare plan for County employees as well as employees of the Other Component Units and the Component Unit School Board. The plan provides post-employment health care benefits to all eligible permanent employees who meet the requirements under the County's pension plan. The plan does not issue a publicly available financial report.

Benefits Provided

The plan provides health insurance benefits to eligible retirees and their spouses. To be eligible, employees must meet the age and service criteria for retirement benefits under VRS, which requires that the employee be (1) age 50 with 10 years of service; (2) age 55 with 5 years of service; or (3) age 65 with 5 years of service. Additionally, the employee must be of full-time status in VRS and must be covered by the active plan at the time of retirement. Coverage continues for the earlier of a period of fifteen years or reaching Medicare eligibility at age 65.

Health benefits include medical and dental. Participating retirees pay 100% of monthly premiums to continue with the County's insurance plans.

Note 9 - Other Postemployment Benefits (OPEB) - Health Insurance: (Continued)

Plan Membership

At July 1, 2020 (measurement date), the following employees were covered by the benefit terms:

| | Primary | Component Units | Component Unit |
|--------------------------------------|------------|-----------------|----------------|
| | Government | Tazewell County | School Board |
| Total active employees with coverage | 234 | 39 | 644 |
| Total retirees with coverage | 18 | - | 78 |
| Total | 252 | 39 | 722 |

Contributions

The County does not pre-fund benefits; therefore, no assets are accumulated in a trust fund. The current funding policy is to pay benefits directly from general assets on a pay-as-you-go basis. The funding requirements are established and may be amended by the Board of Supervisors. The amounts paid by the County, Other Component Units, and Component Unit School Board, for OPEB as the benefits came due during the year ended June 30, 2021 were \$266,762, \$25,860, and \$598,378, respectively.

Total OPEB Liability

The County's total OPEB liability was measured as of July 1, 2020. The total OPEB liability was determined by an actuarial valuation as July 1, 2020.

Actuarial Assumptions

The total OPEB liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

| Healthcare Cost Trend Rates | 6.50% for fiscal year end 2021, decreasing 0.50% per year to an | | | | | |
|-----------------------------|---|--|--|--|--|--|
| | ultimate rate of 5.00% | | | | | |
| Salary Increases | Service-graded | | | | | |
| Discount Rate | 2.45% | | | | | |

The mortality rates were calculated using the RP-2014 Mortality Table, fully generational with base year 2006, projected using two-dimensional mortality improvement scale MP-2020.

Note 9 - Other Postemployment Benefits (OPEB) - Health Insurance: (Continued)

Discount Rate

The discount rate used when OPEB plan investments are insufficient to pay for future benefit payments is from a 20-Year tax exempt general obligation municipal bond with an average rating of AA/Aa or higher. Since the plan has no assets, the discount rate is equal to the Fidelity Index's "20-year Municipal GO AA Index" as of the measurement date. The final equivalent single discount rate used for this year's valuation is 2.45% as of the end of the fiscal year.

Changes in Total OPEB Liability

| | | | Other | Component |
|---|----|--------------|--------------|-------------|
| | | Primary | Component | Unit School |
| | | Government | Units | Board |
| Balances at June 30, 2019 | \$ | 6,265,999 \$ | 765,005 \$ | 13,009,996 |
| Changes for the year: | | | | |
| Service cost | | 217,661 | 21,100 | 488,239 |
| Interest | | 190,416 | 18,459 | 427,125 |
| Difference between expected and actual experience | | 59,879 | 5,805 | 134,316 |
| Changes in assumptions | | 338,617 | 32,826 | 759,557 |
| Contributions - employer | | (266,762) | (25,860) | (598, 378) |
| Change in proportionate share | _ | (265,804) | (183,335) | 449,139 |
| Net changes | \$ | 274,007 \$ | (131,005) \$ | 1,659,998 |
| Balances at June 30, 2020 | \$ | 6,540,006 \$ | 634,000 \$ | 14,669,994 |

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following amounts present the total OPEB liability of the County, Other Component Units, and Component Unit School Board, as well as what the total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.45%) or one percentage point higher (3.45%) than the current discount rate:

| | Rate | | | | |
|---|---------------|------------------|---------------|--|--|
| | 1% Decrease | Current Discount | 1% Increase | | |
| | 1.45% | 2.45% | 3.45% | | |
| Proportionate share of the healthcare total OPEB liability: | | | | | |
| County | \$ 7,061,853 | \$ 6,540,006 | \$ 6,055,284 | | |
| | | | | | |
| Other Component Units | \$ 684,589 | \$ 634,000 | \$ 587,010 | | |
| | | | | | |
| Component Unit School Board | \$ 15,840,557 | \$ 14,669,994 | \$ 13,582,706 | | |

Note 9 - Other Postemployment Benefits (OPEB) - Health Insurance: (Continued)

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the County, Other Component Units, and Component Unit School Board, as well as what the total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower or one percentage point higher than the current healthcare cost trend rates:

| | Rate | | | | | |
|---|------|------------|----|------------|----|-------------|
| | | | | | | |
| | 1 | % Decrease | | Trend | • | 1% Increase |
| Proportionate share of the healthcare net OPEB liability: County | \$ | 5,890,018 | \$ | 6,540,006 | \$ | 7,302,268 |
| Other Component Units | \$ | 570,989 | \$ | 634,000 | \$ | 707,895 |
| Component Unit School Board | \$ | 13,211,993 | \$ | 14,669,994 | \$ | 16,379,836 |

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended June 30, 2021, the County, Other Component Units, and Component Unit School Board recognized OPEB expense in the amounts of \$534,000, (\$45,000), and \$426,000, respectively. At June 30, 2021, the County, Other Component Units, and Component Unit School Board, reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | | | | | Componei | nt Unit | | |
|--|------------------|------------|-------------|------------|--------------|------------|--|--|
| | Primary Gov | vernment | Other Compo | nent Units | School Board | | | |
| | Deferred | Deferred | Deferred | Deferred | Deferred | Deferred | | |
| | Outflows of | Inflows of | Outflows of | Inflows of | Outflows of | Inflows of | | |
| | Resources | Resources | Resources | Resources | Resources | Resources | | |
| Differences between expected and actual experience | \$ 49,400 \$ | 730,227 | 4,789 \$ | 70,790 \$ | 110,811 \$ | 1,637,983 | | |
| Changes in assumptions | 571,248 | 120,956 | 55,378 | 11,726 | 1,281,374 | 271,318 | | |
| Employer contributions subsequent to the | | | | | | | | |
| measurement date | 266,762 | - | 25,860 | | 598,378 | - | | |
| Total | \$ 887,410 \$ | 851,183 | 86,027 \$ | 82,516 \$ | 1,990,563 \$ | 1,909,301 | | |

\$266,762, \$25,860, and \$598,378 was reported as deferred outflows of resources related to OPEB resulting from the County, Other Component Units, and Component Unit School Board, respectively, contributions subsequent to the measurement date will be recognized as a reduction of the Total OPEB liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| | | | Other | | |
|------------|--------------|----|----------|-----|-------------|
| Year Ended | Primary | Co | omponent | Con | ponent Unit |
| June 30 | Government | | Units | Sc | hool Board |
| | | | _ | | |

| 2023 | (137,423) | | (13,322) | | (308, 255) |
| 2024 | (110,776) | | (10,739) | | (248, 485) |
| 2025 | 105,387 | | 10,216 | | 236,397 |
| 2026 | 49,700 | | 4,818 | | 111,482 |
| | | | | | |

Additional disclosures on changes in total OPEB liability and related ratios can be found in the required supplementary information following the notes to the financial statements.

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan):

Plan Description

The Group Life Insurance (GLI) Plan was established pursuant to \$51.1-500 et seq. of the <u>Code of Virginia</u>, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI Plan OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

Benefit Amounts

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, safety belt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$8,616 as of June 30, 2021.

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Contributions

The contribution requirements for the GLI Plan are governed by \$51.1-506 and \$51.1-508 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% x 60%) and the employer component was 0.54% (1.34% x 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2021 was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability.

Contributions to the GLI Plan from the Primary Government were \$56,021 and \$52,744 for the years ended June 30, 2021 and June 30, 2020, respectively.

Contributions to the GLI Plan from the Other Component Units were \$8,852 and \$8,657 for the years ended June 30, 2021 and June 30, 2020, respectively.

Contributions to the GLI Plan from the Component Unit School Board (nonprofessional) were \$18,620 and \$18,494 for the years ended June 30, 2021 and June, 30, 2020, respectively.

Contributions to the GLI Plan from the Component Unit School Board (professional) were \$136,169 and \$131,763 for the years ended June 30, 2021 and June, 30, 2020, respectively.

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB

Primary Government GLI Plan

At June 30, 2021, the entity reported a liability of \$822,430 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2020 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the Group Life Insurance Plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the participating employer's proportion was 0.04931% as compared to 0.04975% at June 30, 2019.

For the year ended June 30, 2021, the participating employer recognized GLI OPEB expense of \$18,089. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB (Continued)

Other Component Units Group Life Insurance Plan

At June 30, 2021, the entity reported a liability of \$134,981 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2020 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the Group Life Insurance Plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the participating employer's proportion was 0.00809% as compared to 0.00811% at June 30, 2019.

For the year ended June 30, 2021, the participating employer recognized GLI OPEB expense of \$2,969. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

Component Unit School Board (nonprofessional) GLI Program

At June 30, 2021, the entity reported a liability of \$288,375 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2020 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the Group Life Insurance Plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the participating employer's proportion was 0.01730% as compared to 0.01805% at June 30, 2019.

For the year ended June 30, 2021, the participating employer recognized GLI OPEB expense of \$(1,065). Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

Component Unit School Board (professional) GLI Program

At June 30, 2021, the entity reported a liability of \$2,054,671 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2020 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the Group Life Insurance Program for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the participating employer's proportion was 0.12310% as compared to 0.12656% at June 30, 2019.

For the year ended June 30, 2021, the participating employer recognized GLI OPEB expense of \$17,757. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB (Continued)

At June 30, 2021, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

Actuarial Assumptions

1...61.......

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020. The assumptions include several employer groups. Salary increases and mortality rates included herein are for relevant employer groups. Information for other groups can be referenced in the VRS ACFR.

| Inflation | 2.50% |
|--|------------------------------------|
| Salary increases, including inflation: | |
| Teachers | 3.50%-5.95% |
| Locality - General employees | 3.50%-5.35% |
| Locality - Hazardous Duty employees | 3.50%-4.75% |
| Investment rate of return | 6.75%, net of investment expenses, |
| | including inflation* |

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

*Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of OPEB liabilities.

Mortality Rates - Teachers

Pre-Retirement:

RP-2014 White Collar Employee Rates to age 80, White Collar Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020.

Post-Retirement:

RP-2014 White Collar Employee Rates to age 49, White Collar Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males 1% increase compounded from ages 70 to 90; females set back 3 years with 1.5% increase compounded from ages 65 to 70 and 2.0% increase compounded from ages 75 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; 115% of rates for males and females.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post- retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|---|---|
| Retirement Rates | ' ' |
| Recircinent Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

Mortality Rates - Non-Largest Ten Locality Employers - General Employees

Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post- retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|---|--|
| Retirement Rates | Lowered retirement rates at older ages and extended final retirement age from 70 to 75 |
| Withdrawal Rates | Adjusted termination rates to better fit experience at each age and service year |
| Disability Rates | Lowered disability rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

Mortality Rates - Non-Largest Ten Locality Employers - Hazardous Duty Employees

Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81 and older projected with scale BB to 2020; males 90% of rates; females set forward 1 year.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 1 year with 1.0% increase compounded from ages 70 to 90; females set forward 3 years.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years; unisex using 100% male.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post- retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|---|--|
| Retirement Rates | Increased age 50 rates and lowered rates at older ages |
| Withdrawal Rates | Adjusted termination rates to better fit experience at each age and service year |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Line of Duty Disability | Decreased rate from 60.00% to 45.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

NET GLI OPEB Liability

The net OPEB liability (NOL) for the GLI Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2020, NOL amounts for the GLI Plan are as follows (amounts expressed in thousands):

| | _ | GLI OPEB Plan |
|---|----|------------------------|
| Total GLI OPEB Liability Plan Fiduciary Net Position | \$ | 3,523,937 1,855,102 |
| GLI Net OPEB Liability (Asset) | \$ | 1,668,835 |
| Plan Fiduciary Net Position as a Percentage of the Total GLI OPEB Liability | | 52.64% |

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| | Long-Term Target Asset | Arithmetic Long-term Expected | Weighted Average Long-term Expected |
|--------------------------------------|------------------------------|-------------------------------------|--|
| Asset Class (Strategy) | Allocation | Rate of Return | Rate of Return* |
| Public Equity | 34.00% | 4.65% | 1.58% |
| Fixed Income | 15.00% | 0.46% | 0.07% |
| Credit Strategies | 14.00% | 5.38% | 0.75% |
| Real Assets | 14.00% | 5.01% | 0.70% |
| Private Equity | 14.00% | 8.34% | 1.17% |
| MAPS - Multi-Asset Public Strategies | 6.00% | 3.04% | 0.18% |
| PIP - Private Investment Partnership | 3.00% | 6.49% | 0.19% |
| Total | 100.00% | | 4.64% |
| | | Inflation | 2.50% |
| *Expe | ected arithmet | ic nominal return | 7.14% |

^{*}The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019 the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS Fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

Note 10 - Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2020, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

Sensitivity of the Employer's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

| | | | | Rate | | |
|--|-------------|-----------|------|--------------|-------------|-----------|
| | 1% Decrease | | Curr | ent Discount | 1% Increase | |
| | | (5.75%) | | (6.75%) | | (7.75%) |
| Proportional share of the GLI Plan Net OPEB Liability | | | | | | |
| Primary Government | \$ | 1,081,149 | \$ | 822,430 | \$ | 612,328 |
| Other Component Units | \$ | 177,442 | \$ | 134,981 | \$ | 100,498 |
| Component Unit School Board | | | | | | |
| (Nonprofessional) | \$ | 379,091 | \$ | 288,375 | \$ | 214,705 |
| Component Unit School Board | | | | | | |
| (Professional) | \$ | 2,071,023 | \$ | 2,054,671 | \$ | 1,529,773 |

GLI Plan Fiduciary Net Position

Detailed information about the GLI Plan's Fiduciary Net Position is available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2020-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 11 - Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan):

Plan Description

The Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit (HIC) Plan was established pursuant to §51.1-1400 et seq. of the <u>Code of Virginia</u>, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee HIC Plan. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information for the Teacher HIC Plan OPEB, including eligibility, coverage, and benefits is described below:

Eligible Employees

The Teacher Employee Retiree HIC Plan was established July 1, 1993 for retired Teacher Employees covered under VRS who retire with at least 15 years of service credit. Eligible employees include full-time permanent (professional) salaried employees of public school divisions covered under VRS. These employees are enrolled automatically upon employment.

Benefit Amounts

The Teacher Employee HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired teachers. For Teacher and other professional school employees who retire, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount. For Teacher and other professional school employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is either: \$4.00 per month, multiplied by twice the amount of service credit, or \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower.

HIC Plan Notes

The monthly HIC benefit cannot exceed the individual premium amount. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

Note 11 - Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Contributions

The contribution requirements for active employees is governed by §51.1-1401(E) of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Each school division's contractually required employer contribution rate for the year ended June 30, 2021 was 1.21% of covered employee compensation for employees in the VRS Teacher Employee HIC Plan. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the school division to the VRS Teacher Employee HIC Plan were \$304,224 and \$302,696 for the years ended June 30, 2021 and June 30, 2020, respectively.

Teacher Employee HIC OPEB Liabilities, Teacher Employee HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee HIC Plan OPEB

At June 30, 2021, the school division reported a liability of \$3,753,485 for its proportionate share of the VRS Teacher Employee HIC Plan OPEB Liability was measured as of June 30, 2020 and the total VRS Teacher Employee HIC Plan OPEB liability used to calculate the Net VRS Teacher Employee HIC Plan OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019 and rolled forward to the measurement date of June 30, 2020. The school division's proportion of the Net VRS Teacher Employee HIC Program OPEB Liability was based on the school division's actuarially determined employer contributions to the VRS Teacher Employee HIC OPEB plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the school division's proportion of the VRS Teacher Employee Health Insurance Credit Plan was 0.28770% as compared to 0.29555% at June 30, 2019.

For the year ended June 30, 2021, the school division recognized VRS Teacher Employee HIC OPEB expense of \$209,346. Since there was a change in proportionate share between measurement dates, a portion of the VRS Teacher Employee HIC Net OPEB expense was related to deferred amounts from changes in proportion.

Note 11 - Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Teacher Employee HIC OPEB Liabilities, Teacher Employee HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee HIC Plan OPEB (Continued)

At June 30, 2021, the school division reported deferred outflows of resources and deferred inflows of resources related to the VRS Teacher Employee HIC OPEB from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------|-------------------------------|
| Differences between expected and actual experience | \$ - | \$ 50,126 |
| Net difference between projected and actual earnings on Teacher HIC OPEB plan investments | 16,634 | - |
| Change in assumptions | 74,201 | 20,508 |
| Change in proportionate share | - | 501,625 |
| Employer contributions subsequent to the measurement date | 304,224 | |
| Total | \$ 395,059 | \$ 572,259 |

\$304,224 reported as deferred outflows of resources related to the Teacher Employee HIC OPEB resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Teacher Employee HIC OPEB Liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Teacher Employee HIC OPEB will be recognized in the Teacher Employee HIC OPEB expense in future reporting periods as follows:

| Year Ended June 30 | _ | |
|--------------------|----|----------|
| | | |
| 2022 | \$ | (98,040) |
| 2023 | | (96,391) |
| 2024 | | (96,944) |
| 2025 | | (87,890) |
| 2026 | | (62,673) |
| Thereafter | | (39,486) |

Note 11 - Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Actuarial Assumptions

The total Teacher Employee HIC OPEB liability for the VRS Teacher Employee HIC Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation 2.50%

Salary increases, including inflation: 3.50%-5.95%

Investment rate of return 6.75%, net of investment expenses,

including inflation*

Mortality Rates - Teachers

Pre-Retirement:

RP-2014 White Collar Employee Rates to age 80, White Collar Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020.

Post-Retirement:

RP-2014 White Collar Employee Rates to age 49, White Collar Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males 1% increase compounded from ages 70 to 90; females set back 3 years with 1.5% increase compounded from ages 65 to 70 and 2.0% increase compounded from ages 75 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; 115% of rates for males and females.

^{*}Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of OPEB liabilities.

Note 11 - Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post- | Updated to a more current mortality table - RP- |
|--|--|
| retirement healthy, and disabled) | 2014 projected to 2020 |
| Retirement Rates | Lowered rates at older ages and changed final |
| | retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year |
| | age and service through 9 years of service |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Net Teacher Employee HIC OPEB Liability

The net OPEB liability (NOL) for the Teacher Employee HIC Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2020, NOL amounts for the VRS Teacher Employee HIC Plan is as follows (amounts expressed in thousands):

| | Teacher Employee HIC OPEB Plan |
|--|--------------------------------------|
| Total Teacher Employee HIC OPEB Liability | \$ 1,448,676 |
| Plan Fiduciary Net Position | 144,160 |
| Teacher Employee Net HIC OPEB Liability (Asset) | \$ 1,304,516 |
| Plan Fiduciary Net Position as a Percentage | |
| of the Total Teacher Employee HIC OPEB Liability | 9.95% |

The total Teacher Employee HIC OPEB liability is calculated by the System's actuary, and the plan's fiduciary net position is reported in the System's financial statements. The net Teacher Employee HIC OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Note 11 - Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the VRS System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| | Long-Term Target Asset | Arithmetic Long-term Expected | Weighted Average Long-term Expected |
|--------------------------------------|------------------------------|-------------------------------------|--|
| Asset Class (Strategy) | Allocation | Rate of Return | Rate of Return* |
| Public Equity | 34.00% | 4.65% | 1.58% |
| Fixed Income | 15.00% | 0.46% | 0.07% |
| Credit Strategies | 14.00% | 5.38% | 0.75% |
| Real Assets | 14.00% | 5.01% | 0.70% |
| Private Equity | 14.00% | 8.34% | 1.17% |
| MAPS - Multi-Asset Public Strategies | 6.00% | 3.04% | 0.18% |
| PIP - Private Investment Partnership | 3.00% | 6.49% | 0.19% |
| Total | 100.00% | | 4.64% |
| | | Inflation | 2.50% |
| *Expe | ected arithmet | ic nominal return | 7.14% |

^{*}The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019 the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

Note 11 - Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total Teacher Employee HIC OPEB was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2020, the rate contributed by each school division for the VRS Teacher Employee HIC Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, all agencies are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the Teacher Employee HIC OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total Teacher Employee HIC OPEB liability.

Sensitivity of the School Division's Proportionate Share of the Teacher Employee HIC Net OPEB Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the VRS Teacher Employee HIC Plan net HIC OPEB liability using the discount rate of 6.75%, as well as what the school division's proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

| | Rate | | | | | |
|---------------------------------|---------|-------------|---------|---------------|---------|-------------|
| | | 1% Decrease | Cur | rent Discount | , | 1% Increase |
| | (5.75%) | | (6.75%) | | (7.75%) | |
| School division's proportionate | | | | | | |
| share of the VRS Teacher | | | | | | |
| Employee HIC OPEB Plan | | | | | | |
| Net HIC OPEB Liability | \$ | 4,201,636 | \$ | 3,753,485 | \$ | 3,372,590 |

Teacher Employee HIC OPEB Fiduciary Net Position

Detailed information about the VRS Teacher Employee HIC Plan's Fiduciary Net Position is available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2020-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 12 - Health Insurance Credit (HIC) Plan (OPEB Plan):

Plan Description

The Political Subdivision Health Insurance Credit (HIC) Plan was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of participating political subdivisions are automatically covered by the VRS Political Subdivision HIC Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information about the Political Subdivision HIC Plan OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The Political Subdivision Retiree HIC Plan was established July 1, 1993 for retired political subdivision employees of employers who elect the benefit and retire with at least 15 years of service credit. Eligible employees include full-time permanent salaried employees of the participating political subdivision who are covered under the VRS pension plan. These employees are enrolled automatically upon employment.

Benefit Amounts

The Political Subdivision Retiree HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired political subdivision employees of participating employers. For employees who retire, the monthly benefit is \$1.50 per year of service per month with a maximum benefit of \$45.00 per month. For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45.00 per month.

HIC Plan Notes

The monthly HIC benefit cannot exceed the individual premium amount. There is no HIC for premiums paid and qualified under LODA; however, the employee may receive the credit for premiums paid for other qualified health plans. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

Note 12 - Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Employees Covered by Benefit Terms

As of the June 30, 2019 actuarial valuation, the following employees were covered by the benefit terms of the HIC OPEB plan:

| | Number |
|-------------------------|--------|
| Active members | 175 |
| Total covered employees | 175 |

Contributions

The contribution requirements for active employees is governed by §51.1-1402(E) of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. The Component Unit School Board's contractually required employer contribution rate for the year ended June 30, 2021 was 1.64% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the Component Unit School Board to the HIC Plan were \$56,225 and \$0 for the years ended June 30, 2021 and June 30, 2020, respectively.

Net HIC OPEB Liability

The Component Unit School Board's net HIC OPEB liability was measured as of June 30, 2020. The total HIC OPEB liability was determined by an actuarial valuation performed as of June 30, 2019, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Note 12 - Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Actuarial Assumptions

The total HIC OPEB liability was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation 2.50%

Salary increases, including inflation:

Locality - General employees 3.50%-5.35%

Investment rate of return 6.75%, net of investment expenses,

including inflation*

Mortality Rates - Non-Largest Ten Locality Employers - General Employees

Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement:

RP-2014 Disability Life Mortality Table projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

^{*}Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of the OPEB liabilities.

Note 12 - Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post- | Updated to a more current mortality table - RP- |
|--|---|
| retirement healthy, and disabled) | 2014 projected to 2020 |
| Retirement Rates | Lowered retirement rates at older ages and |
| | extended final retirement age from 70 to 75 |
| Withdrawal Rates | Adjusted termination rates to better fit |
| | experience at each age and service year |
| Disability Rates | Lowered disability rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Note 12 - Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| | | | Weighted |
|--------------------------------------|----------------|-------------------|-----------------|
| | Long-Term | Arithmetic | Average |
| | Target | Long-term | Long-term |
| | Asset | Expected | Expected |
| Asset Class (Strategy) | Allocation | Rate of Return | Rate of Return* |
| | | | |
| Public Equity | 34.00% | 4.65% | 1.58% |
| Fixed Income | 15.00% | 0.46% | 0.07% |
| Credit Strategies | 14.00% | 5.38% | 0.75% |
| Real Assets | 14.00% | 5.01% | 0.70% |
| Private Equity | 14.00% | 8.34% | 1.17% |
| MAPS - Multi-Asset Public Strategies | 6.00% | 3.04% | 0.18% |
| PIP - Private Investment Partnership | 3.00% | 6.49% | 0.19% |
| Total | 100.00% | | 4.64% |
| | | Inflation | 2.50% |
| *Expe | ected arithmet | ic nominal return | 7.14% |

^{*}The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

Note 12 - Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total HIC OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2020, the rate contributed by the entity for the HIC OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the HIC OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total HIC OPEB liability.

Changes in Net HIC OPEB Liability

| | | | I | ncrease (Decre | ease | e) |
|---------------------------|-----|-----------|-----|---------------------|------|-------------------|
| | | Total | | Plan | | Net |
| | | HIC OPEB | | Fiduciary | | HIC OPEB |
| | | Liability | | Net Position | | Liability (Asset) |
| | _ | (a) | | (b) | _ | (a) - (b) |
| Balances at June 30, 2019 | \$_ | - | \$_ | - | _\$ | |
| Changes for the year: | | | | | | |
| Benefit changes | \$ | 782,665 | \$ | - | \$ | 782,665 |
| Net changes | \$_ | 782,665 | \$ | - | \$ | 782,665 |
| Balances at June 30, 2020 | \$_ | 782,665 | \$_ | - | \$ | 782,665 |

Note 12 - Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Sensitivity of the Component Unit School Board's HIC Net OPEB Liability to Changes in the Discount Rate

The following presents the Component Unit School Board's HIC Plan net HIC OPEB liability using the discount rate of 6.75%, as well as what the Component Unit School Board's net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

| | | Rate | | | | | | | | | | | | |
|-------------------------------|-----|-------------|------------------|-----|-------------|--|--|--|--|--|--|--|--|--|
| | | 1% Decrease | Current Discount | | 1% Increase | | | | | | | | | |
| | | (5.75%) | (6.75%) | _ | (7.75%) | | | | | | | | | |
| Component Unit School Board's | | | | _ | | | | | | | | | | |
| Net HIC OPEB Liability | \$_ | 855,605 \$ | 782,665 | \$_ | 719,247 | | | | | | | | | |

HIC Plan OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIC Plan OPEB

For the year ended June 30, 2021, the Component Unit School Board recognized HIC Plan OPEB expense of \$782,665. At June 30, 2021, the Component Unit School Board reported deferred outflows of resources and deferred inflows of resources related to the Component Unit School Board's HIC Plan from the following sources:

| | erred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------|-------------------------------|
| Employer contributions subsequent to the measurement date | \$ 56,225 | \$ |
| Total | \$ 56,225 | \$ |

Note 12 - Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

HIC Plan OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIC Plan OPEB: (Continued)

\$56,225 reported as deferred outflows of resources related to the HIC OPEB resulting from the Component Unit School Board's contributions subsequent to the measurement date will be recognized as a reduction of the Net HIC OPEB Liability in the fiscal year ending June 30, 2022.

HIC Plan Data

Information about the VRS Political Subdivision HIC Plan is available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/pdf/publications/2020-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 14 - Contingent Liabilities:

Federal programs in which the County and its component units participate were audited in accordance with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirement for Federal Awards (the Uniform Guidance). Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. Matters of noncompliance were disclosed by audit and the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

Note 15 - Landfill Closure and Postclosure Care Cost:

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post closure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and post closure care costs as an operating expense in each period based on landfill capacity used at each balance sheet date. Of the \$17,014,089 reported as landfill closure and post closure care liability at June 30, 2021, \$9,579,762 represents the cumulative amount reported to date based on use of 56.30 percent of the estimated capacity of the landfill.

Note 15 - Landfill Closure and Postclosure Care Cost: (Continued)

The County will recognize the remaining estimated cost of closure and postclosure care of \$7,434,327 as the remaining capacity is filled. The County expects to close the landfill in 2055. Actual costs may be higher due to inflation, changes in technology or changes in regulations. These estimated amounts are based on what it would cost to perform all closure and post closure care in 2021.

The County uses the Commonwealth of Virginia's financial assurance mechanism to meet the Department of Environmental Quality's assurance requirements for landfill closure and postclosure costs. The County has demonstrated financial assurance requirements for closure and post closure care and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

Note 16 - Risk Management:

The County and its component unit - School Board is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. The County and its component unit - School Board participate with other localities in a public entity risk pool for their coverage of general liability and auto insurance with the Virginia Municipal Liability Pool. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The County and its component unit - School Board pay the Virginia Municipal Group contributions and assessments based upon classification and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the pool may assess all members in the proportion in which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its component unit - School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 17 - Deferred/Unavailable Revenue:

Deferred/unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Under the accrual basis, assessments for future periods are deferred. Deferred/unavailable revenue is comprised of the following:

| | Gov | ernment-wide | | | | | |
|---|--------|-------------------|--------------------|-------------|--|--|--|
| | 9 | Statements | Ва | lance Sheet | | | |
| | Govern | mental Activities | Governmental Funds | | | | |

Note 20 - COVID-19 Pandemic:

The COVID-19 pandemic and its impact on operations continues to evolve. Specific to the County, COVID-19 impacted various parts of its 2021 operations and financial results including, but not limited to, costs for emergency preparedness and shortages of personnel. Federal relief has been received through various programs. Management believes the County is taking appropriate actions to mitigate the negative impact. The extent to which COVID-19 may impact operations in subsequent years remains uncertain, and management is unable to estimate the effects on future results of operations, financial condition, or liquidity for fiscal year 2022.

CARES Act Funding

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was passed by the federal government to alleviate some of the effects of the sharp economic downturn due to the COVID-19 pandemic, which included direct aid for state and local governments from the federal Coronavirus Relief Fund (CRF).

Each locality received its CRF allocations based on population in two equal payments, with the second and final round of funding being received during fiscal year 2021. The County received total CRF funding of \$7,093,378. In addition, the School Board received CRF funding from the Virginia Department of Education in the amount of \$942,375. As a condition of receiving CRF funds, any funds unexpended as of December 31, 2021 will be returned to the federal government. Unspent CRF funds in the amount of \$503,054 are reported as unearned revenue as of June 30.

ARPA Funding

On March 11, 2021, the American Rescue Plan (ARPA) Act of 2021 was passed by the federal government. A primary component of the ARPA was the establishment of the Coronavirus State and Local Fiscal Recovery Fund (CSLFRF). Local governments are to receive funds in two tranches, with 50% provided beginning in May 2021 and the balance delivered approximately 12 months later.

On June 22, 2021, the County received its share of the first half of the CSLFRF funds. As a condition of receiving CSLFRF funds, any funds unobligated by December 31, 2024, and unexpended by December 31, 2026, will be returned to the federal government. Unspent funds in the amount of \$3,942,552 from the initial allocation are reported as unearned revenue as of June 30.

ESF Funding

The CARES Act also established the Education Stabilization Fund (ESF) and allocated \$30.75 billion to the U.S. Department of Education. The ESF is composed of three primary emergency relief funds: (1) a Governor's Emergency Education Relief (GEER) Fund, (2) an Elementary and Secondary School Emergency Relief (ESSER) Fund, and (3) a Higher Education Emergency Relief (HEER) Fund. The Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA Act) was signed into law on December 27, 2020 and added \$81.9 billion to the ESF. In March 2021, the American Rescue Plan Act (ARP Act), in support of ongoing state and institutional COVID-19 recovery efforts, added more than \$170 billion to the ESF. The School Board is receiving this funding from the Virginia Department of Education on a reimbursement basis.

Note 21 - Adoption of Accounting Principle:

The County implemented the financial reporting provisions of Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*, during the fiscal year ended June 30, 2021. This Statement establishes criteria for identifying fiduciary activities of all state and local governments for accounting and financial reporting purpose and how those activities should be reported.

| | Fu | nd Balance | | Net Po | osition | | | | |
|---|-----|---------------|-----|---------------|---------|-------------|--|--|--|
| | Com | oonent Unit - | Con | ponent Unit - | | | | | |
| | Sc | hool Board | S | chool Board | Cust | odial Funds | | | |
| Beginning balance, as previously stated | \$ | 6,426,910 | \$ | (37,128,459) | \$ | - | | | |
| Implementation of GASB 84 | | 1,208,544 | | 1,208,544 | | 67,203 | | | |
| Beginning balance, as restated | \$ | 7,635,454 | \$ | (35,919,915) | \$ | 67,203 | | | |

Note 22 - Subsequent Events:

After year end, the County settled on two claims regarding erroneous assessment of machinery and tools taxes. As a result, \$213,240 in taxes will be abated.

Note 23 - Upcoming Pronouncements:

Statement No. 87, *Leases*, requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period, provides guidance for reporting capital assets and the cost of borrowing for a reporting period and simplifies accounting for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020.

Statement No. 91, Conduit Debt Obligations, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021.

Statement No. 92, *Omnibus 2020*, addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics such as leases, assets related to pension and postemployment benefits, and reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature. The effective dates differ by topic, ranging from January 2020 to periods beginning after June 15, 2021.

Note 23 - Upcoming Pronouncements: (Continued)

Statement No. 93, Replacement of Interbank Offered Rates, establishes accounting and financial reporting requirements related to the replacement of Interbank Offered Rates (IBORs) in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for hedging derivative instruments. The requirements of this Statement, except for removal of London Interbank Offered Rate (LIBOR) as an appropriate benchmark interest rate and the requirements related to lease modifications, are effective for reporting periods beginning after June 15, 2020. The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2021. All requirements related to lease modifications in this Statement are effective for reporting periods beginning after June 15, 2021.

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability of Payment Arrangements*, addresses issues related to public-private and public-public partnership arrangements. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs), (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code (IRC) Section 457 Deferred Compensation Plans - an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement. No 32, (1) increases consistency and comparability related to reporting of fiduciary component units in certain circumstances; (2) mitigates costs associated with the reporting of certain plans as fiduciary component units in fiduciary fund financial statements; and (3) enhances the relevance, consistency, and comparability of the accounting and financial reporting for Section 457 plans that meet the definition of a pension plan and for benefits provided through those plans. The effective dates differ based on the requirements of the Statement, ranging from June 2020 to reporting periods beginning after June 15, 2021.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

Contributions are from County records.

Schedule is intended to show information for 10 years. Because multiple employers participate in the County of Tazewell, Virginia's retirement plan, prior to 2015 the Component Units' information was included in the County's schedules. Therefore, no additional data is currently available. Additional years will be included as they become available.

County of Tazewell, Virginia Notes to Required Supplementary Information Pension Plans

For the Fiscal Year Ended June 30, 2021

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions - The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) - Non-Hazardous Duty:

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP-2014 projected to 2020 |
|---|---|
| Retirement Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Lowered rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

All Others (Non 10 Largest) - Hazardous Duty:

County of Tazewell, Virginia Notes to Required Supplementary Information Group Life Insurance (GLI) Plan For the Fiscal Year Ended June 30, 2021

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions - The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Teachers

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP-2014 projected to 2020 |
|---|---|
| Retirement Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Non-Largest Ten Locality Employers - General Employees

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP-2014 projected to 2020 |
|---|--|
| Retirement Rates | Lowered retirement rates at older ages and extended final retirement age from 70 to 75 |
| Withdrawal Rates | Adjusted termination rates to better fit experience at each age and service year |
| Disability Rates | Lowered disability rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Non-Largest Ten Locality Employers - Hazardous Duty Employees

| , | |
|--|---|
| Mortality Rates (pre-retirement, post-retirement | Updated to a more current mortality table - RP-2014 |
| healthy, and disabled) | projected to 2020 |
| Retirement Rates | Increased age 50 rates and lowered rates at older ages |
| Withdrawal Rates | Adjusted termination rates to better fit experience at each |
| | age and service year |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Line of Duty Disability | Decreased rate from 60.00% to 45.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Performed in Accordance with Government Auditing Standards

To the Board of Supervisors County of Tazewell, Virginia Tazewell, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Tazewell, Virginia as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the County of Tazewell, Virginia's basic financial statements and have issued our report thereon dated November 30, 2021. Our report includes a reference to other auditors who audited the financial statements of Tazewell County, Virginia School Activity Funds, as described in our report on the County of Tazewell, Virginia's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Tazewell, Virginia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Tazewell, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Tazewell, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2021-001 and 2021-002 that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Tazewell, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County of Tazewell, Virginia's Response to Findings

County of Tazewell, Virginia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. County of Tazewell, Virginia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

To the Board of Supervisors County of Tazewell, Virginia Tazewell, Virginia

Report on Compliance for Each Major Federal Program

We have audited the County of Tazewell, Virginia's compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the County of Tazewell, Virginia's major federal programs for the year ended June 30, 2021. County of Tazewell, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

County of Tazewell, Virginia's basic financial statements include the operations of the Public Service Authority (the Authority) which expended \$1,724,947 in federal awards which is not included in the County of Tazewell, Virginia's schedule of expenditures of federal awards during the year ended June 30, 2021. Our audit, described below, did not include the operations of the Authority because the Authority engaged other auditors to perform an audit in accordance with the Uniform Guidance.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County of Tazewell, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Tazewell, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major federal programs. However, our audit does not provide a legal determination of the County of Tazewell, Virginia's compliance.

Basis for Qualified Opinion on Coronavirus Relief Fund (ALN 21.019)

As described in the accompanying schedule of findings and questioned costs, the County of Tazewell, Virginia did not comply with requirements regarding ALN 21.019 Coronavirus Relief Funds as described in finding numbers 2021-003 for Reporting, 2021-004 for Subrecipient Monitoring and 2021-005 for Activities allowed/unallowed and allowable costs. Compliance with such requirements is necessary, in our opinion, for the County of Tazewell, Virginia to comply with the requirements applicable to that program.

Qualified Opinion on Coronavirus Relief Fund (ALN 21.019)

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the County of Tazewell, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on ALN 21.019 Coronavirus Relief Fund for the year ended June 30, 2021.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the County of Tazewell, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2021.

Other Matters

County of Tazewell, Virginia's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. County of Tazewell, Virginia's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of the County of Tazewell, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County of Tazewell, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Tazewell, Virginia's internal control over compliance.

Report on Internal Control Over Compliance (continued)

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2021-003, 2021-004, and 2021-005 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

County of Tazewell, Virginia's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. County of Tazewell, Virginia's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards

Note 1 -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal awards of the County of Tazewell, Virginia under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Tazewell, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Tazewell, Virginia.

Note 2 -- Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.
- (3) The County did not elect to use the 10 percent de minimis indirect cost rate allowed under Uniform Guidance.

Note 3 -- Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of commodities received and disbursed.

Note 4 -- Outstanding Balance of Federal Loans

The County did not have any loans or loan guarantees which are subject to reporting requirements for the current year.

Note 5 -- Relationship to the Financial Statements:

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements: Primary Government: General Fund

| Prinary Government: | |
|---|------------------|
| General Fund | \$ 11,228,513 |
| County CIP Fund | 940,985 |
| Less: Payment in lieu of taxes | (30,618) |
| Total Primary Government | \$ 12,138,880 |
| Component Unit School Board: | |
| School Operating Fund | \$ 8,743,670 |
| Total expenditures of federal awards per basic financial statements | \$ 20,882,550 |
| Total expenditures of federal awards per the Schedule of Expenditures of Federal Awards | \$ 20,882,550 |
| | |

Auditee qualified as low-risk auditee?

Section II - Financial Statement Findings

2021-001 (Material Weakness)

Criteria: An auditee should have sufficient controls in place to produce financial statements in accordance with applicable

standards.

Condition: The financial statements as presented for audit, did not contain all necessary adjustments to comply with

generally accepted accounting principles (GAAP). As such, there were proposed adjustments that were material

to the financial statements.

Effect of Condition: There is a reasonable possibility that a material misstatement of the financial statements will not be prevented

or detected and corrected by the County's internal controls over financial reporting.

Cause of Condition: The County does not have proper controls in place to detect and correct adjustments in closing their year end

financial statements.

Recommendation: The County should review the auditors' proposed audit adjustments for the fiscal year and develop a plan to

ensure the trial balances and related schedules are accurately presented for audit.

Management's Response: The County will review the auditors' proposed audit adjustments for the fiscal year and will develop a plan of

action to ensure that all adjusting entries are made prior to final audit fieldwork next year.

Schedule of Findings and Questioned Costs For the Fiscal Year Ended June 30, 2021

Section II - Financial Statement Findings (Continued)

2021-002 (Material Weakness)

Criteria: Controls should be in place to ensure that grant funds are requested for reimbursement in a timely manner in

accordance with the matching principle.

Condition: The School Board is not submitting reimbursement requests for federal grant programs in a timely manner.

Effect of Condition: There is a reasonable possibility that revenues and expenditures are not appropriately matched and reported in

accordance with Generally Accepted Accounting Principles.

Cause of Condition: The School Board does not have adequate staffing to ensure that reimbursement requests are filed in a timely

manner.

Recommendation: The School Board should review its processes to see if there are any efficencies that can be gained with the

current staff to ensure that reimbursement requests are filed timely.

Management's Response: The School Board agrees with the finding and recommendation, but with the current staffing feels that is is

unable to implement the above recommendation.

Section III - Federal Award Findings and Questioned Costs

2021-003

Program Titles: COVID-19 Coronavirus Relief Fund

ALN: 21.019

Pass-through Entity: Virginia Department of Accounts

Compliance Requirement: Reporting

Finding Type: Noncompliance and Material Weakness

Criteria: Prime recipients (i.e. the Commonwealth of Virginia) are required to submit quarterly Financial Progress reports.

To assist with same, the Commonwealth required quarterly reports from its subrecipients (the County).

Condition: The amount reported in the quarterly reports to the Commonwealth totaled \$7,424,202 while expenditure

reports from the County's system show a total of \$6,918,557 expended, with a difference of \$505,645.

Questioned Costs: None

Context: Quarterly reports prepared for the Commonwealth were based on system generated expenditure detail reports

for the same quarter; however, a year-to-date report was not utilized to ensure that aggregate totals reported

to the state were updated for any journal entries or voided checks.

Effect: The amounts reported by the County to the Commonwealth are overstated resulting in an error in reporting by

the Commonwealth to the federal government.

Cause: Lack of appropriate reconciliation and review processes over the quarterly reporting process.

Recommendation: Management should establish a reconciliation process and reports should be reviewed by someone other than the

preparer prior to submission to ensure accuracy of same.

Views of Responsible Officials: Management agrees with the recommendation and Finance staff will implement a reconciliation process that

includes proper review and approval by someone other than the report preparer prior to submission to ensure

accuracy of reporting.

Schedule of Findings and Questioned Costs For the Fiscal Year Ended June 30, 2021

Section III - Federal Award Findings and Questioned Costs (Continued)

2021-004

Program Titles: COVID-19 Coronavirus Relief Fund

ALN: 21.019

Pass-through Entity: Virginia Department of Accounts

Compliance Requirement: Subrecipient Monitoring

Finding Type: Noncompliance and Material Weakness

Criteria: Pass-through entities are required to perform subrecipient monitoring for subawards made to Towns or other

entities to whom grant awards are made.

Condition: Documentation provided by subrecipients was not complete nor did it agree to the schedule of expenditures that

was provided to the County regarding the use of funds.

Questioned Costs: Unknown

Context: Total population of >200 expenditures and a sample of 40 items were selected haphazardly for testing. Four out

of the 40 items selected for testing did not have sufficient documentation to ensure subrecipient monitoring was

adequate.

Effect: Unallowable costs may have been reported.

Cause: Lack of monitoring on an ongoing basis to ensure subrecipient documentation is complete.

Recommendation: Management should consider distributing funds on a reimbursement basis after documentation has been reviewed

or should implement a review process wherein subrecipient expenditures are monitored on a routine basis to

ensure allowability under the program and completeness.

Views of Responsible Officials: Management agrees and will evaluate its subrecipient monitoring process and implement new procedures to

ensure that funds are on a reimbursement basis or that there is a formalized review process in place.

Schedule of Findings and Questioned Costs For the Fiscal Year Ended June 30, 2021

Section III - Federal Award Findings and Questioned Costs (Continued)

2021-005

Program Titles: COVID-19 Coronavirus Relief Fund

ALN: 21.019

Pass-through Entity: Virginia Department of Accounts

Compliance Requirement: Activities allowed/unallowed and allowable costs

Finding Type: Noncompliance and Material Weakness

Criteria: Expenditures under the program must meet allowability criteria under the program and documentation to

support that this has been met should be maintained and provided for audit purposes.

Condition: Documentation provided for testing did not provide sufficient detail to determine that Comprehensive Services

Act (CSA) expenditures and salaries, other than public safety and public health, met the allowability criteria. Additionally, CSA is reimbursed in part by State funds and guidance related to the program does not specify that

funds can be used to meet local match requirements for other awards.

Questioned Costs: Questioned costs totaled \$127,141.72.

Context: Total population of >200 expenditures and a sample of 40 items were selected haphazardly for testing for both

payroll and accounts payable disbursements. One out of the 40 accounts payable items selected for testing did not have adequate documentation and 11 out of 40 payroll items selected for testing did not have adequate

documentation.

Effect: Unable to determine that amounts reported as expended under the program meet activities allowed/unallowed

and allowable cost requirements.

Cause: Lack of review processes to ensure that documentation provided for audit was adequate.

Recommendation: Management should implement a process to ensure that documentation maintained is adequate to ensure that

allowability and allowable cost requirements for the program have been met.

Views of Responsible Officials: Management will review its process for reviewing disbursements under the program and related documentation

 $requirements \ for \ same \ to \ ensure \ that \ adequate \ documentation \ is \ available \ upon \ request.$

Schedule of Prior Audit Findings For the Fiscal Year Ended June 30, 2021

| 2020-001 | |
|-----------------|---|
| Condition: | The financial statements as presented for audit, did not contain all necessary adjustments to comply with generally accepted accounting principles (GAAP). As such, there were proposed adjustments that were material to the financial statements. |
| Recommendation: | The County should review the auditors' proposed audit adjustments for the fiscal year and develop a plan to ensure the trial balances and related schedules are accurately presented for audit. |
| Current Status: | Finding 2020-001 was repeated in the current year as 2021-001. |
| 2020-002 | |
| Condition: | Controls should be in place to ensure that grant funds are requested for reimbursement in a timely manner in accordance with the matching principle. |
| Recommendation: | The School Board should review its processes to see if there are any efficencies that can be gained with the current staff to ensure that reimbursement requests are filed timely. |
| Current Status: | Finding 2020-002 was previously reported as a significant deficiency and is shown as finding 2021-002 as a material weakness in the current year. |
