***Bland/Wythe contract***

The County Administrator asked for approval of up to \$5,000.00 to pay the difference in the month of August for diverting refuse to the Bland/Wythe solid waste to the Pulaski regional landfill. Mr. Young explained that the County had contracted to accept Bland/Wythe JPSA solid waste for a price less than Pulaski charges so contractually, the Board was obligated to pay the difference.

Upon motion of Supervisor Gillespie, seconded by Supervisor Presley and adopted by a vote of 5 to 0, with all members present and voting in favor thereof and no one against the same, the Tazewell County Board of Supervisors hereby approves up to \$5,000.00 for the additional cost of diverting refuse to Bland/Wythe landfill.

***Vanhoosier Road***

Mr. Dunford stated that the CST approved funds for paving rather than patching Vanhoosier Road and asked for approval for up to \$7,900.00 to complete that job. The County Administrator stated that the CST Committee approved \$30,000.00 for that job, but estimates aren't in yet so anything over \$30,000.00 will need to be covered by the County.

Upon motion of Supervisor Gillespie, seconded by Supervisor Presley and adopted by a vote of 5 to 0, with all members present and voting in favor thereof and no one against the same, the Tazewell County Board of Supervisors hereby approves up to \$30,000.00 from CST funds and an additional \$5,000.00, if necessary, from Southern District capital improvement funds for the expense of paving Vanhoosier Road in its entirety.

Mr. Dunford shared details regarding a drainage project on Tacoma Road for which the CST Committee approved up to \$28,000.00 and a drainage project on Ford Street for which they approve up to \$7,900.00.

Upon motion of Supervisor Plaster, seconded by Supervisor Presley and adopted by a vote of 5 to 0, with all members present and voting in favor thereof and no one against the same, the Tazewell County Board of Supervisors hereby approves up to \$28,000.00 from CST funds for a drainage project on Tacoma Road and up to \$7,900.00 for a drainage project on Ford Street.

### ***Library – Erica Galloway***

Ms. Galloway offered an update on the progress of cleanup following the completed library construction. She informed the Board that old, damaged carpet is being removed, new carpet installed and a general deep clean of the facility will prepare the library for reopening.

### ***Economic Development – Tim Danielson***

Economic Development Director, Tim Danielson and his assistant, Ashley Harris presented a summary of all economic development projects undertaken by that department, including information regarding the Enterprise Zone.

*Supervisor Gillespie briefly left the meeting at 4:27pm and returned at 4:33pm.*

### ***Emergency Management***

County Administrator, Eric Young described the county's emergency response to the recent crippling storm. He explained that reverse text messages were sent before and during the storm to all residents and briefings with fire departments were given in advance. He stated that approximately 400 calls for assistance calls came in a nine (9) hour span. He expressed his appreciation to those that responded to the emergency calls. He said while flooding was expected, the situation took a different turn and ultimately ended up being more of a wind storm, hindering cellular communication and causing electricity outages, internet outages and downed trees. He summarized that emergency shelters were opened to accommodate residents needing a place to stay and overwhelming power outages brought line crews from out of the area to come assist with restoration of service. He stated that the animal shelter lost power and though it was difficult to clean and care for the animals, none were in danger and were in good care at all times.

According to Mr. Young, assessment of damage will be the next phase, speaking to towns, conferring with the emergency agencies and see if the area will qualify for FEMA, followed by the after-action phase at which point we will meet with towns to see what went right/wrong. He suggested that the PSA invest in some generators for the pump stations to replace generators that are old.

Mr. Young described damage at the landfill. Mr. Young advised the Board that approximately one acre of liner for the new cell had been destroyed. He said this could delay completion by as much as four to six months. He reminded the Board that the current cell would be full by mid-November and asked the Board's authority to divert waste.

Mr. Young asked that the Board extend the local state of emergency until 7 November 2024.

### ***Landfill***

Upon motion of Supervisor Gillespie, seconded by Supervisor Plaster and adopted by a vote of 5 to 0, with all members present and voting in favor thereof and no one against the same, the Tazewell County Board of Supervisors hereby approves extending the local state of emergency until 7 November 2024.

Mr. Young reminded the Board of a previous ordinance requiring commercial refuse companies to dispose of their waste within Tazewell County for revenue purposes and asked for a resolution temporarily suspending that ordinance on an emergency basis until 7 January 2025 allowing the County Administrator to divert waste from Tazewell County to other sites outside the county until that date or until Phase 5A is completed such that the landfill is able to accept solid waste. Mr. Young advised that convenience stations, then town refuse will most likely be diverted first, allowing the public to use the existing space at the landfill. He explained that the

construction contract required cell 5A to be completed before 4C was full. There is a penalty of \$2,500.00 per day for the first thirty (30) days and \$5,000.00 per day after that if the contractor does not finish on time. He stated he will look closer at the contract to determine whether or not there is any exception to the penalty based on an emergency/natural disaster situation.

Upon motion of Supervisor Cruey, seconded by Supervisor Presley and adopted by a vote of 5 to 0, with all members present and voting in favor thereof and no one against the same, the Tazewell County Board of Supervisors hereby approves a resolution suspending a previous ordinance requiring commercial refuse companies to dispose of their waste within Tazewell County and also to permit the County Administrator to divert waste from Tazewell County to other sites outside the county until 7 January 2025 or until Phase 5A is complete or ready to accept refuse, whichever might occur first. A copy is available at the County Administration Office, 197 Main Street, Tazewell, Virginia.

Mr. Young also asked for \$100,000.00 to be transferred from contingency to emergency management to cover the expenses of generators, emergency shelters and other expenses associated with the recent storm.

Chairman Hrovatic commented that the County has been working toward the new landfill cell construction for quite some time despite frequent hurdles and that the current issues are certainly no fault of the engineering department nor the administration.

Mr. Young also mentioned that each time rain falls, leachate runoff develops at the landfill. The recent storm created an extraordinary amount of leachate and the tanks can't hold it and it had to be hauled elsewhere for a cost likely over \$279,000.00. He emphasized the need for an additional tank at a cost of \$1m.

Upon motion of Supervisor Cruey, seconded by Supervisor Presley and adopted by a vote of 5 to 0, with all members present and voting in favor thereof and no one against the same, the Tazewell County Board of Supervisors hereby approves the transfer of \$100,000.00 from contingency to emergency management to cover the cost of generators, emergency shelter operation and other storm related expenses.

Supervisor Gillespie asked members of county EMS crews present to speak about their experiences working in the recent storm. One member spoke about the difficulty of communication, both within their own department and outside the department. Chief Cornwell said it was the most frightening day of his career as a firefighter

### **Supervisor Plaster**

Supervisor Plaster thanked and commended Mr. Young, the County EMS and everyone who responded to the storm situation. She also commented that she felt all the money spent to fund Stream Sweepers was very well spent because lesser rains have caused more widespread flooding in the past but felt that the cleanup efforts by Stream Sweepers made a considerable difference in the recent storm. She urged that the Board fund them in the future.
