Statement of Purpose

We, the undersigned residents, homeowners, and stakeholders of 252 Old River Road Pocahontas, Virginia in Tazewell County, Virginia, formally request that the Tazewell County Board of Supervisors coordinate with the Virginia Department of Transportation (VDOT) to conduct an official traffic and engineering speed study on our street.

Reason for Request

Our neighborhood has experienced a substantial escalation in vehicle speeds and traffic volume. Because secondary and unposted rural routes in Virginia often default to statutory limits, motorists frequently travel at speeds that are highly unsafe for our specific residential layout, blind curves, hidden driveways, and pedestrian activities. We believe a formal VDOT engineering study is necessary to evaluate the physical features, prevailing traffic speeds, and safety conditions to determine if a speed limit reduction or traffic-calming measures are warranted.

Proposed Action

By signing below, we express our community support for this request and ask our Tazewell County Board of Supervisors representative to sponsor a resolution conveying this need to the VDOT Resident Engineer.

2. **No entitlement to maximum amount.** The Grant is a maximum award and not an unconditional entitlement to payment. Grantee shall be entitled to receive Grant Funds only to the extent:

a. Grantee satisfies the conditions to disbursement set forth in this Agreement;

b. The requested payment is for Eligible Costs;

c. Grantee remains in compliance with this Agreement; and

d. The County has not suspended, terminated, withheld, or recovered Grant Funds pursuant to this Agreement.

3. **Permitted uses.** Unless otherwise prohibited by Virginia law or regulation, inclusive of any law, regulations, or rules as set forth by the Virginia Opiod Abatement Authority, Grantee shall use Grant Funds solely for Eligible Costs in support of the Services, including:

c. Renovations to the service location; and

d. Operating costs for the Services.

4. **Prohibited uses.** Grantee shall not use Grant Funds for any purpose that is not expressly permitted by this Agreement, approved in writing by the County, and allowable as an opioid abuse abatement use. Without limiting the foregoing, Grantee shall not use Grant Funds for:

Article 3 — Services and Service Commitment

1. **Provision of Services.** Grantee shall provide the Services in the Claypool Hill Service Area in accordance with this Agreement, the Prospectus, all

written County approvals, and all applicable laws, permits, licenses, and funding requirements.

2. **Minimum three-year commitment.** Grantee shall provide the Services continuously and without interruption for a period of not less than three years beginning July 1, 2027 and ending no earlier than June 30, 2030, unless a longer period is required by this Agreement, a recorded restriction, another funding condition, or a written amendment signed by both Parties.

3. **Service commencement.** Grantee shall commence providing the Services no later than the Service Commencement Deadline. Grantee's failure to commence providing the Services by July 1, 2027 shall constitute an automatic failure of a material condition of the Grant and shall entitle the County to terminate this Agreement and require return of all Grant Funds previously disbursed, as provided in Article 8.

4. **Continuous and uninterrupted services.** During the Service Commitment, Grantee shall not discontinue, suspend, materially reduce, relocate outside the Claypool Hill Service Area, or materially alter the Services without the County's prior written consent.

5. **Service location.** Grantee shall provide the Services at

7. **Standards of performance.** Grantee shall perform the Services in a professional, competent, lawful, and fiscally responsible manner consistent with the Prospectus and the purposes for which the Grant is awarded.

8. **No County operation or control.** Grantee shall be solely responsible for operating, staffing, managing, licensing, and supervising the Services. Nothing in this Agreement shall be construed to make Grantee an agent, employee, department, instrumentality, joint venturer, or partner of the County.

Article 4 — Disbursement of Grant Funds

1. **Total awarded amount.** The total Grant amount awarded under this Agreement shall not exceed One Million and No/100 Dollars ($1,000,000.00).

2. **Initial Disbursement.** Subject to Section IV of this Article 4, the County shall disburse to Grantee an Initial Disbursement equal to ten percent (10%) of the total awarded Grant amount upon satisfaction of the applicable real property condition:

of the executed lease to the County, and County approval of the lease as sufficient for the Services and the Service Commitment; or

b. If Grantee will purchase the premises where the Services will be provided, upon Grantee's execution of a binding contract for purchase of the real property, delivery of a complete copy of the executed purchase contract to the County and recording of the deed conveying the premises to Grantee or another County-approved owner, and County approval of the purchase documentation as sufficient for the Services and the Service Commitment.

3. Use of Initial Disbursement. The Initial Disbursement shall be used exclusively for Eligible Costs and shall remain subject to documentation, audit, repayment, and recapture obligations under this Agreement.

4. Conditions to Initial Disbursement. The County shall have no obligation to make the Initial Disbursement unless all of the following conditions have been satisfied or waived in writing by the County:

Grantee shall submit invoices and supporting documentation for Eligible Costs actually incurred and, unless otherwise approved by the County, paid or payable by Grantee.

6. Invoice requirements. Each reimbursement request shall include:

a. A signed invoice or payment request identifying the amount requested;

b. Vendor invoices, rent statements, closing statements, receipts, contracts, payroll records, or other documentation sufficient to verify the cost;

c. Proof of payment, if requested by the County;

d. A description of how the cost relates to the Services;

e. The applicable budget category;

f. A certification by an authorized officer of Grantee that the request is true, correct, allowable, and not duplicative of any other reimbursement request; and

g. Any additional documentation reasonably required by the County to verify eligibility, allowability, and compliance.

7. **Net 30 payment.** Subject to County approval of the invoice and supporting documentation, the County shall pay approved Reimbursement Disbursements within thirty (30) days after receipt of a complete and proper reimbursement request.

8. **Incomplete or disputed invoices.** If the County determines that a reimbursement request is incomplete, unsupported, inaccurate, ineligible, excessive, or otherwise not payable, the County may withhold payment of the disputed amount and notify Grantee of the reason for withholding. Payment of undisputed approved amounts may proceed in accordance with this Agreement.

9. **No advance payments except Initial Disbursement.** Except for the Initial Disbursement, no Grant Funds shall be advanced to Grantee. All remaining disbursements shall be made solely as reimbursements for Eligible Costs.

10. **Cessation of rent and operating payments if Services stop.** If Grantee stops providing the Services, the County's obligation to make any further Grant payments for rent or operating costs shall immediately cease as of the date the Services stop, regardless of whether Grantee continues to incur rent, operating, or other costs.

11. **Disbursement cap.** In no event shall the aggregate amount of all Grant Funds disbursed under this Agreement exceed the lesser of:

a. One Million and No/100 Dollars ($1,000,000.00);
b. The total awarded Grant amount approved by the County; or
c. The total amount of Eligible Costs approved for payment by the County.

Article 5 — Budget, Records, Reporting, and Audit

1. **Budget.** Grantee shall provide the County with an annual budget for each year that Grant Funds are used in accordance with this Agreement. The County may require Grantee to submit an updated budget before any disbursement.

2. **Budget amendments.** Grantee shall not materially reallocate Grant Funds among approved cost categories without the County's prior written approval. A material reallocation includes any reallocation exceeding fifteen thousand and No/100 Dollars ($15,000.00) or any transfer of funds into a cost category not previously approved.

5. **Reports.** Grantee shall provide the County with periodic reports in the form and frequency required by the County, including at a minimum:

a. A service implementation report no later than six months from the start of operations in Tazewell County, Virginia;

7. **No duplication of payment.** Grantee shall not request or receive Grant Funds for any cost that has been paid, reimbursed, or funded by another source unless the reimbursement request clearly discloses the other source and the County determines in writing that the cost remains eligible and non-duplicative.

Article 6 — Real Property, Leasehold, Renovation, and Asset Requirements

1. **Approved premises.** Grant Funds used for rent, acquisition, or renovations shall relate only to premises approved by the County for provision of the Services in the Claypool Hill Service Area.

2. **Lease requirements.** If Grantee leases the premises, Grantee shall provide the County with a complete executed copy of the lease and any amendments. The lease must be sufficient, in the County's reasonable judgment, to support performance of the Service Commitment.

3. **Acquisition requirements.** If Grantee purchases real property using Grant Funds, Grantee shall provide the County with the purchase contract, recorded deed, settlement statement, title documentation, and such other acquisition documents as the County reasonably requires.

4. **Renovations.** Renovations funded with Grant Funds shall be used only to support the Services and shall be performed in compliance with applicable building, zoning, procurement, permitting, licensing, accessibility, safety, and environmental requirements.

5. **Use during Service Commitment.** During the Service Commitment, Grantee shall use any premises, improvements, or assets supported by Grant Funds primarily for the Services and shall not sell, transfer, abandon, cease using, or materially change the use of such premises, improvements, or assets without the County's prior written consent.

6. **County security or restriction.** If required by the County as a condition of disbursement for real property purchase, acquisition, or renovation costs, Grantee shall execute and deliver a deed restriction, memorandum of grant restrictions, performance deed of trust, covenant, or other instrument reasonably required by the County to secure Grantee's Service Commitment and repayment obligations. Any such instrument shall be in form and substance acceptable to the County and shall be recorded among the land records of Tazewell County, Virginia.

7. **No County ownership absent written instrument.** No disbursement of Grant Funds shall, by itself, create any ownership interest of the County in Grantee's leasehold, real property, improvements, fixtures, equipment, or operations unless expressly provided in a separate written and recorded instrument signed by the Parties.

Article 7 — Representations, Warranties, and Covenants

1. **Grantee representations.** Grantee represents and warrants to the County that:

i. Return Grant Funds when required by this Agreement.

4. No assignment of Service Commitment. Grantee shall not assign, delegate, subcontract, transfer, or otherwise shift material responsibility for the Service Commitment without the County's prior written consent. County consent to any subcontract or delegation shall not relieve Grantee of responsibility for performance.

New Cell Construction

Protective cover is being placed on the slopes and floor of the cell.

The Engineering department is currently comparing the tonnage to the remaining airspace daily. We are also checking the compaction rate monthly. As of this report we will still have enough available airspace to finish construction.

Operations

I have submitted the Draft Recycling Action Plan to DEQ for Review waiting to receive approval.

The Now Savaging signs have been installed at all the convenience areas and the Transfer Stations

Jewell Ridge Convenience Area: Bears remain an issue, trying to find a solution

I am currently working with Marshall Miller and DEQ to figure out the next Steps for the wells at the old animal shelter.

I have looked at the option for Shredder that strips metals from the tires so that we could sell the mulch. In order to strip the metal from the tire shredding another piece of equipment would need to be purchased. From my research I estimate that the cost for the second piece of equipment is $500,000-$600,000.

I am also looking at mobile shredders as an option.

Working with the legal department on the contract for hauling tires to Bland Wythe JPSA

Cedar Bluff Transfer Station

The Variance has been approved. A temporary draft permit has been issued but we can not start construction until we have a 30 day comment period and a public hearing which will be scheduled for the January meeting. Once the comment period is over we can place the project out to bid.

Leachate Tank

A draft permit has been issued. Once we have a 30 day comment period we can place the project out to bid when we choose.

VDOT

The smart scale application has been submitted. As I get updates, I will let you know.

I am working on a project pipeline study with VDOT. Once there are more detail I will update you.

Please see the attached VDOT report

Roads

Cemetery RD (Northern District) We have received complaints from Mr. Steltiner about when he brings a big truck onto the road the road is being torn up and would like the county to fix the road and widen the road.

Shamrock , Sparrow , Songbird and Sparrow – The sewer issue needs to be resolved before the stormwater issue can be addressed.

Buckhorn St - The water bars have been installed and we are still getting complaints about the road.

Tradewinds drive- The Legal Department is looking into the Right of Way.

Ontario drive- Ditch work has been requested on the road. To do the work we would need additional Row on the road. Based on the information that we have the ROW on the road is 20' and the road is 10' wide that leaves 10' of ROW on the road This means that we have 5' of Right of way on each side of the road (assuming that the road was built in the center of the ROW.) To make the ditch function properly we will need to redefine the ditch and in stall pipes under entrances. There is no shoulder on either side of the road so a shoulder needs to be placed on the side of the road which needs to be approximately 4' wide then a 2' ditch can be installed. To do this we would need at a minimum and additional 10' of right of way. 10' wide road is a 1 lane road and without a shoulder on either side of the road there is no room for cars going opposite directions to pass. Also, the County does not do snow removal so the snowy and icy conditions cause someone to slide into the ditch. I have not prepared an estimate for this work but based on other roads it could be $15,000 -$20,000 to

do the work. It is my opinion that we can not do anything to the ditch until we have the additional ROW.

Safe Streets for all Grant

The county has been awarded the implementation portion of the Safe Streets for all Grant.

IT Department

The IT Department is currently working on the following projects along with the day-to-day tasks

The new County Website is progress
The new phone system installation has been started
Installation of the backup system is in progress

Richlands School Drainage project

The pond has been completed and we are waiting on the asbuilt. The contractor has been authorized to install the ditch in front of the playground.

Other Items

The sink hole repairs at the airport are currently on hold till funding for the project is determined.

I have met with VDOT and have tentative approval for the land use permit to place the sign at the Wardell Industrial park. At the time of sending out this report I do not have the final approval. I will update you when I get final approval.

VDOT Update
December 1, 2026

BOARD ACTION ITEMS

The Residency does not have any requests for action for this meeting.

BOARD CONCERNS / REQUESTS & ITEMS OF NOTE

Lakeview Drive Ditching

Area headquarters staff have reviewed the route and plan to complete some ditching later this fall, particularly after leaves fall.

Burkes Garden Road

Residency staff recently completed a site review. Minor vegetation removal may be initiated in the future. If the main concern is with the rock outcropping, at the address provided, the Residency will not be pursuing any work to remove the rock. The anticipated level of effort anticipated to remove the rock coupled with the proximity of the rock to the existing structure poses a substantial risk to the existing structure. Given the lack of crashes (none in the past 5 years) in proximity to the location under review, the risk associated with removing the rock is not warranted.

MAINTENANCE ACTIVITIES – COMPLETED / UNDERWAY

Ditching / Culvert Clearing: Ditching and culvert cleaning were completed at various locations on Route 712,

Culvert Replacement: A drainage culvert was replaced on Route 91.

Brush Cutting: Brush cutting was completed on portions of Routes 604, 626, 650, 700 and 719.

Unpaved Shoulder Repair – Unpaved shoulder maintenance / repair was completed on portions of Route 19.

Animal Removal: Animal carcasses were removed from various routes across the County.

Gravel Road Maintenance: Stone was applied and the road surface shaped on Routes 643 and 656.

Snow Removal Operations: All headquarters were engaged in snow removal operations over the weekend of November 13th.

MAINTENANCE ACTIVITIES – PLANNED

Pothole (Hand) Patching: Pothole (hand) patching will continue as weather conditions, asphalt availability and workload allow.

Ditching: Ditching will continue on various routes as weather conditions and workload allow.

Brush Cutting / Boom Ax Operations: Various routes as weather conditions and workload allow.

Gravel Roads: Blade and spread gravel as needed and as weather conditions allow.

RURAL RUSTIC PROJECTS & FY 27 – FY 32 PLAN

Work on the Healing Springs Road (Route 643 near Lake Witten) is complete except for the placement of shoulder stone.

Atwell Road (Route 825 Boissevain Area) receives full funding in FY 27 – design sketches and the environmental review process are complete. Pipe replacement has been completed. Paving is planned to be completed in the spring of 2027.

Sisters Lane (Route 819 – Bandy area) receives partial funding in FY 27. The environmental review has been completed. Brush cutting and pipe replacement will be initiated late this winter.

DESIGN PROJECTS

There are two significant projects under design in the County:

1. A bridge replacement on Fairgrounds Road (near the intersection with Route 61 / Riverside Drive).

   This project is scheduled to be bid in summer 2028.

2. Intersection improvements at the Route 19 / 460 split at Claypool Hill.

   This project is scheduled to be bid in 2031.

CONSTRUCTION PROJECTS

Intersection improvements at the Route 610 (Indian Paint Road) / 460 intersection in Claypool Hill

The 610/460 intersection project involves raising the elevation of the north-bound lanes of 460 as well as a segment of Route 610 and adding a traffic signal on the 4th leg (Route 610 traffic – across from McDonalds) of the intersection. The signal on 610 is the most significant portion of work remaining.

Completion of the work is anticipated to be by the end of this calendar year, provided no unforeseen issues occur.

Pavement Markings and Markers

Retracing of the pavement markings for the season has been completed.
